### Product Description:

The Dairy Cleaning Supplies product, the Milking Washing Plate (Jetter Tray), is an essential tool designed for dairy farmers who prioritize cleanliness and efficiency in their milking processes. This foldable cleaning accessory is specifically crafted for washing the milk cluster group in Delaval milking parlors, offering a convenient and effective solution for maintaining hygiene standards.

Weighing at 1.8KG, the Milking Washing Plate (Jetter Tray) is lightweight yet sturdy, ensuring ease of handling during cleaning routines. Its model, HL-MP04C, denotes a high-quality construction that guarantees durability and longevity, making it a reliable investment for dairy farmers seeking long-term cleaning solutions.

One of the key features of this product is its applicability in washing the milk cluster group, a critical component in the milking process. By utilizing the Milking Washing Plate (Jetter Tray), farmers can efficiently and thoroughly clean this essential equipment, ensuring the health and safety of their herd and the quality of the milk produced.

For dairy farmers looking to enhance their milking process and prioritize sanitation, the Milking Washing Plate (Jetter Tray) serves as a valuable tool that streamlines cleaning procedures and promotes optimal hygiene standards. Whether used in conjunction with a teat dipping cup or as part of a comprehensive cow barn sanitation supplies kit, this foldable cleaning accessory offers versatility and efficiency in maintaining a clean and healthy milking environment.

Incorporating the Milking Washing Plate (Jetter Tray) into your dairy cleaning routine can significantly improve the overall cleanliness and hygiene of your milking parlor. Its lightweight design and durable construction make it a practical and reliable tool for daily use, ensuring that your milking equipment remains free from contaminants and bacteria.

Investing in the Milking Washing Plate (Jetter Tray) is not just a purchase; it is a commitment to providing the best possible care for your dairy herd and ensuring the quality of your milk production. With its focus on functionality, durability, and efficiency, this cleaning accessory is a must-have for dairy farmers who value cleanliness and sanitation in their operations.

Whether you are looking to enhance the efficiency of your milking process, improve the hygiene standards of your dairy operation, or simply streamline your cleaning routines, the Milking Washing Plate (Jetter Tray) is the ideal solution. Its foldable design, lightweight construction, and compatibility with teat dipping cups make it a versatile and essential tool for any dairy farmer striving to maintain a clean and healthy milking environment.

## Applications:

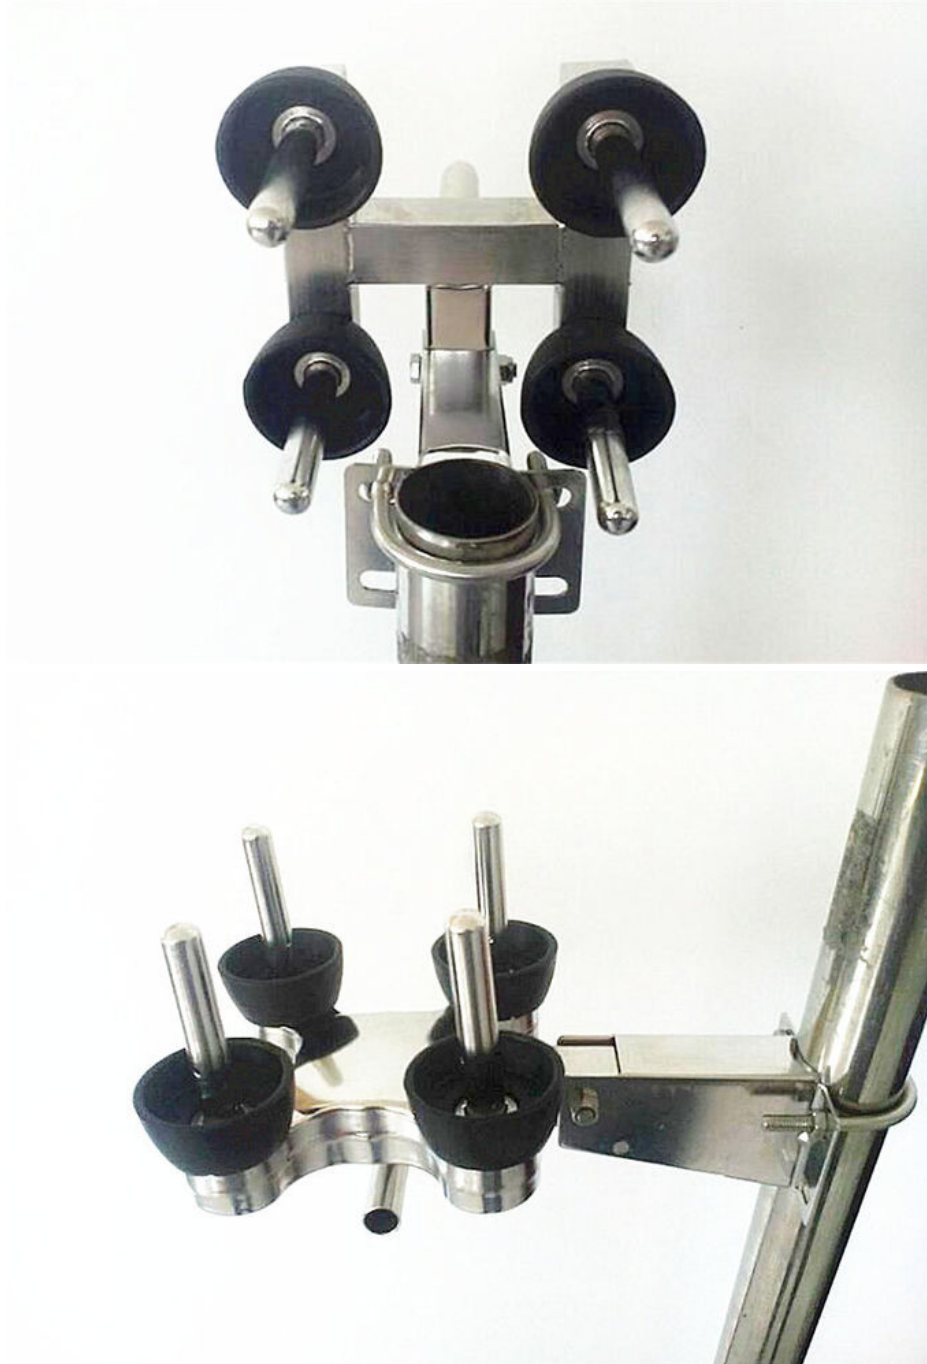

Chuangpu dairy cleaning supplies are designed for efficient and thorough cleaning of dairy facilities, specifically catering to the needs of washing the milk cluster group in Delaval milking parlors. The HL-MP04C model, originating from China, is a reliable and durable solution for maintaining cleanliness in dairy operations.

With a clamp size of 38mm/50mm, the dairy cleaning supplies from Chuangpu are versatile and can accommodate different milking equipment setups. The use of high-quality stainless steel 304 material ensures longevity and resistance to corrosion, making these supplies a cost-effective investment for dairy farmers.

Whether it's the meticulous cleaning of milking claw brushes or the precise application of teat dipping cups, Chuangpu's dairy cleaning supplies excel in providing a hygienic environment for milk production. Weighing only 1.8KG, these supplies are lightweight and easy to handle, enhancing the efficiency of the cleaning process.

From small-scale dairy farms to large commercial operations, the Chuangpu dairy cleaning supplies are suitable for a wide range of applications. Whether it's daily maintenance or deep cleaning procedures, these supplies offer convenience and reliability, ensuring that dairy facilities meet the highest standards of cleanliness.

Invest in Chuangpu dairy cleaning supplies today and experience the difference in efficiency and effectiveness when it comes to maintaining a clean and hygienic environment for your dairy operation.
