

IP10U Milking Liner Durable Milking Cluster Group for Farming Needs Increase Milk Yield

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-MP26D
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 500SETS/Month

Product Specification

- Shell Model: Triangle Milk Cup
- Suitable For: Milking Machine Parts
- Animal: Cow
- Model: HL-MP26D
- Milk Claw: 350CC Milk Claw
- Cluster Shell Material: Plastic
- Name: Cow Milking Cluster Group
- Consists Of: Milk Claw, Milk Liner, Milk Shell, Short Pulse Tube
- Highlight: Farming Milking Cluster Group,
Durable Milking Cluster Group,
milking machine spare parts

Product Description:

The Milking Cluster Group product is an essential component of a dairy farm's milking operation, designed to optimize milk collection efficiency and ensure the smooth functioning of the milk production unit. This particular cluster group is specifically tailored for cows and is model HL-MP26D.

One of the key features of this Milking Cluster Group is its cluster liner material which is made of high-quality rubber. The use of rubber ensures durability and flexibility, making it suitable for long-term use in a demanding dairy farm environment. The rubber material also helps to ensure gentle and comfortable milking for the cows, contributing to overall herd health and milk quality.

Another important component of this Milking Cluster Group is the 350CC milk claw included in the system. The milk claw plays a crucial role in the milking process by providing a secure and efficient connection between the cow's udder and the milk collection system. The 350CC milk claw is designed to handle the milk flow effectively, ensuring smooth and continuous milk collection during the milking process.

Designed for dairy farm milking parts, this Milking Cluster Group is a multipurpose milking gear that offers reliable performance and ease of use. Whether you are operating a small-scale dairy farm or a large commercial operation, this cluster group is designed to meet the needs of milking operations of all sizes.

The Milking Cluster Group is an integral part of the milk collection system, working in conjunction with other milking equipment to ensure efficient and hygienic milk production. By investing in high-quality milking gear like this cluster group, dairy farmers can improve milk production efficiency, reduce milking time, and enhance overall herd management.

When it comes to milking cows, having the right equipment is essential for ensuring the health and well-being of the animals, as well as maximizing milk production. The Milking Cluster Group with rubber cluster liner material and a 350CC milk claw is designed to provide dairy farmers with a reliable and effective solution for their milking needs.

In conclusion, the Milking Cluster Group is a versatile and durable milking gear that is ideal for dairy farm milking parts. With its high-quality rubber cluster liner material, efficient 350CC milk claw, and compatibility with cow models, this cluster group offers dairy farmers a reliable solution for optimizing milk collection efficiency and ensuring smooth milk production operations.

Features:

Product Name: Milking Cluster Group

Animal: Cow

Consists of:

Milk Claw

Milk Liner

Milk Shell

Short Pulse Tube

Shell Model: Triangle Milk Cup

Name: Cow Milking Cluster Group

Suitable For: Milking Machine Parts

Technical Parameters:

Liner Model	IP10U Milking Liner
Suitable For	Milking Machine Parts
Animal	Cow
Shell Model	Triangle Milk Cup
Cluster Liner Material	Rubber
Used For	Dairy Farm Milking Parts
Milk Claw	350CC Milk Claw
Name	Cow Milking Cluster Group
Consists of	Milk Claw, Milk Liner, Milk Shell, Short Pulse Tube

Model	HL-MP26D
-------	----------

Applications:

The Chuangpu HL-MP26D Cow Milking Cluster Group is a high-quality milking machine part suitable for dairy farm milking solutions. Made in China, this milking cluster group is specifically designed for cows and is compatible with various milking machines. The 350CC Milk Claw included in this cluster group ensures efficient milking processes, making it an essential component for any dairy farm operation. Whether you are a small-scale dairy farmer or a larger commercial operation, the Chuangpu Cow Milking Cluster Group provides reliable performance and durability.

This milking cluster group is a vital part of the cow milking unit, ensuring that the milking process is hygienic and efficient. It is used for attaching to the cow's udder during milking, collecting the milk and transferring it to the milk storage system. Whether you are looking to upgrade your existing milking machine or replace worn-out parts, the Chuangpu Cow Milking Cluster Group is the perfect choice. Its high-quality construction and compatibility with various milking machines make it a versatile and reliable option for dairy farmers.

Investing in the Chuangpu HL-MP26D Cow Milking Cluster Group is investing in the efficiency and productivity of your dairy farm milking operation. Ensure smooth milking processes and optimal milk collection with this essential milking cluster group.

HL-MP26D Milk Cluster Group:

- 3000CC Milk Claw (Stainless Steel Base)*1
- IP10U Milk Liner *4
- HL-MP27A Milk Cup*4
- MP36 Short Air Tube*4
