

## Milking Machine System Goat Milking Cluster Group Lightweight Easy To Install

### Our Product Introduction

more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M08
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 500SETS/Month

#### Product Specification

- Weight: 0.6Kg
- Cluster Valve: Automatic Claw, With Spring
- Cluster Connection: Milking Machine System
- Used For: Dairy Farm Milking Parts
- Name: Goat Milking Cluster Group
- Cluster Collector: No Collector, With Y Connector For Connecting Tube Directly
- Cluster Liner: Silicone
- Suitable For: Goating Milking Machine Parts
- Highlight: **Easy Install Milking Cluster Group, Goat Milking Cluster Group, Lightweight Milking Cluster Group**

### Product Description:

The Goat Milking Cluster Group is a vital component in the bovine milking mechanism, providing efficient milk extraction equipment for dairy farms. This product features an automatic claw cluster valve with a spring, ensuring smooth operation and optimal performance during milking sessions.

Specially designed for use with goat milking machine parts, the Goat Milking Cluster Group is a versatile and multipurpose milking gear that seamlessly integrates into any milking machine system. Its cluster connection is compatible with various milking machine setups, making it a convenient and reliable choice for dairy farmers.

With the Goat Milking Cluster Group, dairy farmers can streamline their milking processes and improve overall efficiency on the farm. The automatic claw cluster valve ensures gentle and consistent milking, while the durable construction of the product guarantees long-lasting performance even under heavy daily use.

Whether used in small-scale dairy operations or larger commercial dairy farms, the Goat Milking Cluster Group proves to be a valuable asset for any dairy farmer looking to enhance their milking equipment. Its user-friendly design and compatibility with different milking machine systems make it a practical choice for modern dairy operations.

Investing in the Goat Milking Cluster Group means investing in quality, reliability, and efficiency for your dairy farm. With its innovative features and robust construction, this product is sure to meet the needs of dairy farmers seeking dependable milking equipment for their operations.

### Features:

Product Name: Milking Cluster Group

Used For: Dairy Farm Milking Parts

Payment Term: T/T , Paypal , Western Union

Weight: 0.6Kg

Name: Goat Milking Cluster Group

Cluster Collector: No Collector, With Y Connector For Connecting Tube Directly

### Technical Parameters:

Application	Dairy Farm
Animal	Goat And Sheep
Cluster Connection	Milking Machine System
Used For	Dairy Farm Milking Parts
Cluster Valve	Automatic Claw, With Spring
Name	Goat Milking Cluster Group
Weight	0.6Kg
Suitable For	Goating Milking Machine Parts
Cluster Collector	No Collector, With Y Connector For Connecting Tube Directly
Cluster Liner	Silicone

### Applications:

The Chuangpu HL-M08 Milking Cluster Group is a versatile and efficient product designed for dairy farm applications, specifically suitable for goat and sheep milking machine parts. This multipurpose milking gear is made in China and features an automatic claw with a spring-loaded cluster valve for optimal milk collection.

Perfect for small to medium-sized dairy farms, the HL-M08 Milking Cluster Group is a vital component of any milk production unit. Its reliable performance and ease of use make it an ideal choice for farmers looking to streamline their milking process.

Whether you are milking goats or sheep, this product ensures a smooth and efficient milking experience. The automatic claw and spring-loaded cluster valve help to improve milk flow and reduce milking time, ultimately increasing productivity on the farm.

With flexible payment terms including T/T, Paypal, and Western Union, purchasing the Chuangpu HL-M08 Milking Cluster Group is convenient and hassle-free. Farmers can rest assured that they are investing in a high-quality product that will enhance their milking operations.

Overall, the Milking Cluster Group from Chuangpu is a reliable and durable milk collection system that is perfect for dairy farmers looking to optimize their milking process. Its innovative design and compatibility with goat and sheep milking machines make it a must-have for any modern dairy farm.
