### Product Description:

Introducing our top-of-the-line Dairy Cleaning Supplies product - the Teat Dip Cup With Brush. This innovative product is designed to revolutionize the cleaning process of dairy equipment, ensuring optimal hygiene and efficiency. Whether you are a small dairy farm or a large-scale operation, this product is a must-have for maintaining the cleanliness of your milking equipment.

The Teat Dip Cup With Brush is a versatile tool that can be used for a variety of cleaning purposes in the dairy industry. Its unique design allows for easy application of medicated bath after milking, making it an essential component of your dairy cleaning routine. The included brush, made of durable nylon material, ensures thorough cleaning and sanitization of teat cups, milk liners, and milking tubes.

Constructed from high-quality PPU material, the bottle of the Teat Dip Cup is durable and long-lasting, making it ideal for daily use in the dairy facility. The ergonomic design of the cup provides a comfortable grip, allowing for precise application of cleaning solutions without any spills or leaks.

When it comes to payment options, we offer a variety of choices to suit your convenience. You can make your purchase using T/T (Telegraphic Transfer), Western Union, MoneyGram, or Paypal. Our secure payment gateway ensures a hassle-free transaction process, giving you peace of mind when ordering your Dairy Cleaning Supplies.

In addition to the Teat Dip Cup With Brush, we also offer a range of other essential cleaning tools for dairy farms. Our Milk Liner Brush is designed to effectively clean and maintain milk liners, ensuring optimal milk quality and hygiene. The Milking Tube Brush is another indispensable tool for keeping milking tubes free from residue and bacteria, promoting the health of your herd and the quality of your milk. For bulk cleaning needs, our selection of Bulk Tank Cleaning Chemicals is perfect for maintaining the cleanliness of your bulk milk tanks. These specially formulated chemicals are designed to remove tough stains, residues, and bacteria, leaving your tanks spotless and sanitized.

Invest in the Teat Dip Cup With Brush and experience the difference it can make in your dairy cleaning routine. With its superior design, durable materials, and versatile applications, this product is a game-changer for dairy farmers looking to streamline their cleaning processes and ensure the highest standards of hygiene.

### Applications:

Dairy Facility Cleaning Supplies by Chuangpu are designed for cleaning cow teats before and after milking, specifically targeting dairy

cattle. The Teat Dip Cup with Brush, model number HL-MP57A, is a versatile tool originating from China, ideal for maintaining hygienic milking equipment.

One key scenario for using these dairy cleaning supplies is during the milking process. The Teat Dip Cup with Brush, model HL-MP57A, effectively cleans cow teats to prevent contamination and ensure milk quality. This product is essential for dairy farmers looking to maintain a clean and sanitary milking environment.

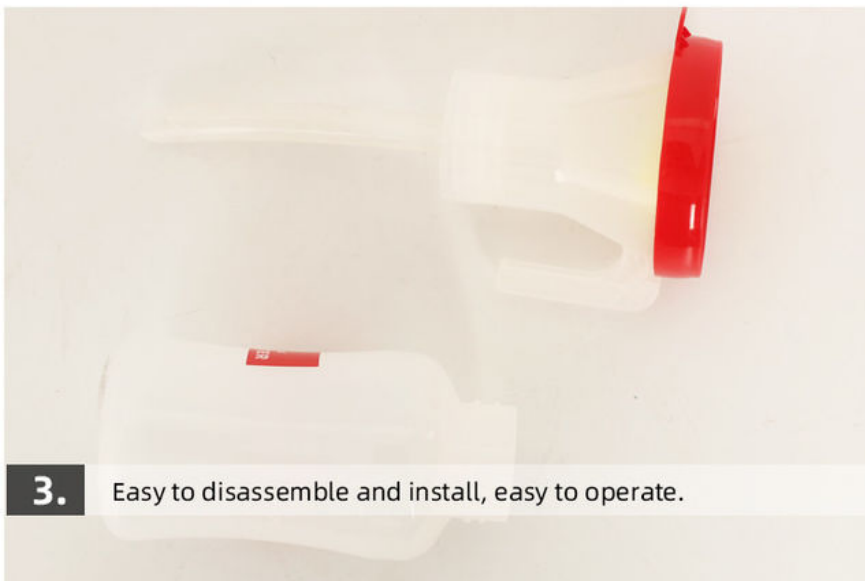

Another important occasion for utilizing these milking equipment cleaning products is after milking. The Teat Dip Cup with Brush by Chuangpu is perfect for post-milking cleaning routines, helping to remove any residual dirt or bacteria from the cow teats. This step is crucial for preventing infections and maintaining the health of the dairy cattle.

Additionally, the Milking Claw Brush included in the dairy cleaning supplies set is perfect for thorough cleaning of milking equipment. This brush ensures that all parts of the milking claw are properly cleaned and sanitized, meeting the high standards required for dairy farming operations.

In summary, Chuangpu's Dairy Facility Cleaning Supplies, model HL-MP57A, are essential tools for maintaining a clean and hygienic milking environment for dairy cattle. Whether cleaning cow teats before or after milking, or ensuring the proper sanitation of milking equipment, these products are a must-have for dairy farmers looking to uphold the highest standards of cleanliness and hygiene.

**2.** Transparent bottle for easy observation of the amount of medicated bath.

**3.** Easy to disassemble and install, easy to operate.

# PRODUCT DETAILS

WE ALWAYS ADHERE TO RIGOROUS MANAGEMENT, THE FOUNDATION OF METICULOUS MANUFACTURING,  
PRODUCE PRODUCTS THAT MEET THE MARKET'S RULES AND CUSTOMER NEEDS

1. Soft brush, effective massage nipple.

## Pro-drug dip cup

**The pro-drug bath is used to clean the nipples and prepare for milking.**

1. Gently squeeze the bottle, the nipple bath in the bottle will pass vertically through the tube and deposit on the brush at the mouth of the bottle to reduce labor intensity.
2. All the medicated baths were distributed on the brush and the medicated bath was 100% covered with nipples.
3. Simply brush the nipples in the upper bath room.
4. It minimizes the waste and spillage of the medicated bath.
5. The upper bath chamber is transparent and allows easy control and observation of the amount of bath.

## Posterior teat dip cup

**The medicated bath is used to milk the end to protect the nipple.**

1. The brush is softer than the previous medicated bath and is more suitable for milking and can protect the nipple.
2. After the medicated cup is full, about 150 cows can be bathed.
3. Longer life.
4. The transparent bath cup makes it easier to observe the amount of potion.
5. The medicated bath cup basically does not require maintenance.
