Product Description:

Product Summary:

The Milking Machine Parts are essential milking machine accessories designed to assist in the milking process, particularly when a cow's nipples have mastitis, making it unable to complete milking. In such cases, a milking plug is used in conjunction with other dairy machine parts to ensure efficient milking.

These milking equipment products are crafted from high-quality plastic material, ensuring durability and reliability during milking operations. The plastic construction also makes the parts easy to clean and maintain, promoting optimal hygiene standards in the milking process.

The Milking Machine Parts come in a vibrant color combination of green and white, adding a touch of visual appeal to the milking equipment setup. The contrasting colors make it easy to identify and differentiate the udder milking parts, facilitating efficient assembly and usage.

Each set of Milking Machine Parts is brand new, guaranteeing that they are in pristine condition and free from any wear or damage. This ensures that the parts function effectively and contribute to a smooth milking process without any interruptions.

Features:

Product Name: Milking Machine Parts

Width: 5.9cm

Material: Plastic

Length: 5.8cm

Inner Diameter: 2.8cm

Condition: New

Technical Parameters:

Usage	When A Cow's Nipples Have Mastitis, It Is Unable To Complete Milking. In This Case, A Milking Plug Is Used To Assist In Milking.
Color	Green And White
Outer Diameter	3.3cm
Material	Plastic
Condition	New
Name	Milking Stopper
Length	5.8cm
Inner Diameter	2.8cm
Use	Milking Machine Accessories
Width	5.9cm

Applications:

Chuangpu's HL-MP79 Milking Stopper is a vital milking machine part designed for specific occasions and scenarios in the dairy industry. Made in China, this milking machine accessory plays a crucial role in aiding with milking when a cow's nipples have mastitis, a condition that hinders the complete milking process. In such cases, the Milking Stopper is utilized to facilitate the milking operation, ensuring optimal milk extraction and maintaining the cow's health.

Perfect for use with milking machines and other milking equipment products, the Milking Stopper by Chuangpu is crafted from durable plastic, ensuring longevity and efficiency in milking operations. With a length of 5.8cm and an outer diameter of 3.3cm, this accessory is

designed to fit securely and comfortably during milking sessions, promoting a seamless milking experience for both the cow and the operator. Whether you are a dairy farmer, a milk production facility, or a veterinarian specializing in bovine health, the HL-MP79 Milking Stopper serves as an essential cow milking attachment for addressing mastitis-related milking challenges. By incorporating this innovative milking machine part into your milking process, you can improve milking efficiency, enhance milk quality, and ensure the well-being of your dairy herd.
