

Innovative HL-M09 Milking Cluster Group For High Yield Dairy Production In Cooperatives

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M09
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Carton
- Payment Terms: T/T, Western Union,
- Supply Ability: 500SETS/Month

Product Specification

- Name: Goat Milking Cluster Group
- Cluster Liner: Silicone
- Animal: Goat And Sheep
- Application: Dairy Farm
- Cluster Connection: Milking Machine System
- Cluster Valve: Semi-Automatic Claw, With Iron Plate
- Used For: Dairy Farm Milking Parts
- Cluster Collector: No Collector, With Y Connector For Connecting Tube Directly
- Highlight: **Dairy Production Milking Cluster Group, High Yield Milking Cluster Group, Innovative Milking Cluster Group**

Product Description:

The Milking Cluster Group is an essential component for any dairy farm looking to streamline their milking process. This product is designed to be used with a Milking Machine System, making it compatible with various milking setups.

With a weight of 0.7Kg, the Milking Cluster Group is lightweight and easy to handle, ensuring that it can be used efficiently during milking operations. The cluster connection of this product allows for seamless integration with existing milking equipment, providing a hassle-free experience for dairy farmers.

One of the standout features of the Milking Cluster Group is its unique design that eliminates the need for a Cluster Collector. Instead, it comes equipped with a Y Connector for connecting the tube directly, simplifying the milking process and reducing the risk of contamination.

This product is ideal for use in a Udder Milking Station, where it can be used as part of a Milk Collection System to gather milk from cows efficiently. The Milking Cluster Group serves as a crucial component of the Cow Milking Apparatus, ensuring that dairy farmers can effectively harvest milk from their herd.

When it comes to payment terms, customers have the flexibility to choose from a range of options including T/T, Paypal, and Western Union. This ensures that purchasing the Milking Cluster Group is convenient and secure for dairy farmers looking to enhance their milking operations.

Overall, the Milking Cluster Group is a reliable and efficient product that is specifically designed for use in Dairy Farm Milking Parts. Its innovative design, lightweight construction, and compatibility with milking machine systems make it a valuable addition to any dairy farm looking to optimize their milking process.

Features:

Product Name: Milking Cluster Group

Name: Goat Milking Cluster Group

Suitable For: Goat Milking Machine Parts

Cluster Liner: Silicone

Cluster Valve: Semi-Automatic Claw, With Iron Plate

Animal: Goat And Sheep

Technical Parameters:

Application	Dairy Farm
Animal	Goat And Sheep
Cluster Connection	Milking Machine System
Weight	0.7Kg
Used For	Dairy Farm Milking Parts
Payment Term	T/T , Paypal , Western Union
Suitable For	Goating Milking Machine Parts
Name	Goat Milking Cluster Group
Cluster Collector	No Collector, With Y Connector For Connecting Tube Directly
Cluster Valve	Semi-Automatic Claw, With Iron Plate

Applications:

The Chuangpu HL-M09 Goat Milking Cluster Group is a versatile and efficient product designed for udder milking stations in dairy farms. Originating from China, this milking cluster group is specifically tailored for goats and sheep, making it a perfect fit for dairy farmers in need of a reliable milking solution.

Equipped with a semi-automatic claw and iron plate cluster valve, the HL-M09 model offers a seamless and user-friendly experience for milking goats. Its innovative design ensures a gentle and effective milking process, reducing stress on the animals and improving overall milk yield.

Whether used as a standalone milking gear or as part of a larger goating milking machine setup, the Chuangpu Goat Milking Cluster

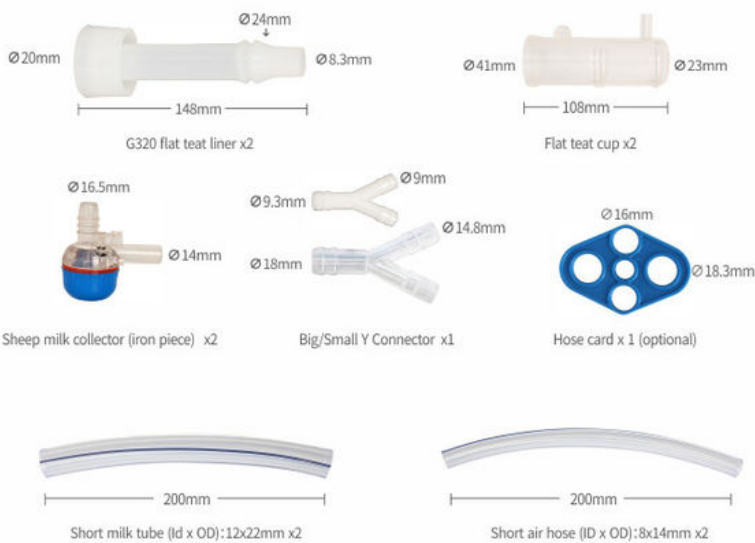

Group excels in various application occasions and scenarios. From small-scale farms to commercial dairy operations, this multipurpose milking gear delivers consistent performance and quality results. Accepted payment terms for the HL-M09 Goat Milking Cluster Group include T/T, Paypal, and Western Union, providing flexibility and convenience for customers worldwide. With its durable construction and reliable functionality, this product is a valuable investment for dairy farmers looking to streamline their milking processes.
