

Long Life Milking Machine Parts Goat and Sheep Milk Cluster Group For Farm

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M08A
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 500SETS/Month

Product Specification

- Animal: Goat And Sheep
- Application: Dairy Farm
- Name: Goat Milking Cluster Group
- Payment Term: T/T , Paypal , Western Union
- Cluster Valve: Automatic Valve, Interpulse ITP207 Model
- Cluster Collector: With 120ml Milk Collector (Shut-off)
- Used For: Dairy Farm Milking Parts
- Consists Of: Milk Shell, Milk Liner, Milk Valve, PVC Pulse Tube, PVC Milk Tube And Milk Claw
- Highlight: **Cluster Group milking machine parts, Farm Milking Cluster Group, milking machine parts Cluster Group**

Product Description:

The Goat Milking Cluster Group is a comprehensive set of components essential for efficient milking in dairy farms. Designed for goat milking operations, this product includes the following key components:

Consists of:

Milk Shell
Milk Liner
Milk Valve
PVC Pulse Tube
PVC Milk Tube
Milk Claw

The milking cluster group is a vital part of the cow milking apparatus. It plays a crucial role in the dairy milking device by connecting the cow to the milking machine and facilitating the efficient extraction of milk.

Cluster Valve: The automatic valve included in this cluster group is of the Interpulse ITP207 model. This high-quality valve ensures smooth operation and consistent milk flow during the milking process.

Cluster Liner: The silicone cluster liner provides a gentle and comfortable milking experience for the goats. It is designed to be durable and easy to clean, making it a reliable component for daily milking operations.

The Goat Milking Cluster Group offers flexibility in payment terms, accepting T/T, Paypal, and Western Union. This makes it convenient for dairy farmers to purchase this essential cow milking unit without any hassle.

Whether you are a small-scale dairy farmer or managing a large commercial dairy operation, having a reliable milking cluster group is essential for efficient milk production. The Goat Milking Cluster Group provides the necessary components to ensure a smooth and effective milking process for your goats.

Features:

Product Name: Milking Cluster Group
Payment Term: T/T , Paypal , Western Union
Name: Goat Milking Cluster Group
Application: Dairy Farm
Cluster Liner: Silicone
Cluster Connection: Milking Machine System

Technical Parameters:

Cluster Collector	With 120ml Milk Collector (Shut-off)
Cluster Valve	Automatic Valve, Interpulse ITP207 Model
Application	Dairy Farm
Used For	Dairy Farm Milking Parts
Consists of	Milk Shell, Milk Liner, Milk Valve, PVC Pulse Tube, PVC Milk Tube And Milk Claw
Payment Term	T/T , Paypal , Western Union
Suitable For	Goating Milking Machine Parts
Cluster Connection	Milking Machine System
Name	Goat Milking Cluster Group
Animal	Goat And Sheep

Applications:

The Chuangpu HL-M08A Goat Milking Cluster Group is a versatile and efficient milking equipment designed for goat and sheep farmers in need of a reliable milk extraction solution. Originating from China, this milking cluster group is a top choice for small-scale and medium-scale dairy operations.

Whether you are looking to set up a new milking system or upgrade your existing one, the HL-M08A Goat Milking Cluster Group is an ideal choice. This product is specifically designed for goat and sheep milking, offering a specialized solution for dairy farmers working with these animals.

The milking cluster group consists of essential components such as the milk shell, milk liner, milk valve, PVC pulse tube, PVC milk tube, and milk claw. The silicone cluster liner ensures gentle and efficient milking, contributing to optimal milk production.

One of the key application occasions for the Chuangpu HL-M08A Goat Milking Cluster Group is during the milking process itself. This product seamlessly integrates into a milking machine system, serving as a crucial component in the cow milking assembly. Its reliable performance and durable construction make it a valuable addition to any dairy operation.

Small dairy farms, goat farms, and sheep farms can benefit greatly from the efficiency and convenience offered by this milk production unit. The HL-M08A Goat Milking Cluster Group streamlines the milking process, allowing farmers to extract milk effectively and hygienically.

Whether you are milking a small herd of goats or a flock of sheep, this milking cluster group provides a practical and user-friendly solution. Its compatibility with standard milking machines makes it easy to incorporate into existing setups or new installations.

HL-M08A Milk Cluster Group:

Sheep milk collector (spring) x 2 Round teat cup x 2
 Sheep milk collector x 1 Short milk tube x 2
 G321 round head milk liner x 2 Short air hose x 2
