Product Description:

The Milk Meter is a specialized tool designed for accurate measurement and collection of milk in a milking parlor setting. Crafted from high-quality borosilicate glass, this milk meter ensures precision and durability, making it a reliable choice for dairy farmers and livestock owners.

With a focus on functionality and ease of use, the Milk Meter features a scale display that allows users to accurately measure the milk collected. This scale display provides clear and precise readings, making it simple for users to track and record milk quantities with confidence.

Whether you are a professional dairy farmer or a livestock owner, the Milk Meter offers a convenient solution for milk measurement. Its glass bottle design is specifically tailored for milk measuring, ensuring that the process is hygienic and efficient. The glass construction is easy to clean and maintain, making it a practical choice for daily use in a milking parlor.

When it comes to portability and storage, the Milk Meter is designed with convenience in mind. It is available for shipment from either Ningbo or Shanghai, providing flexibility and accessibility for customers. The single packaging with foam interlayer ensures that the milk meter arrives safely and securely, ready for immediate use.

Whether you are collecting milk from cows, goats, or other livestock, the Milk Meter is a versatile tool that streamlines the milk measuring process. Its reliable performance and durable construction make it a valuable addition to any milking operation, enhancing efficiency and accuracy.

In summary, the Milk Meter is a high-quality glass milk meter designed for collecting milk and measuring in a milking parlor. With its scale display, high borosilicate material, and convenient packaging, this milk meter offers a reliable solution for livestock milk measurement needs.

Features:

Product Name: Glass Milk Meter
Port: Ningbo Or Shanghai
Model: HL-G03
Material: High Borosilicate
Display: Scale
Logo on Body: Acceptable

Technical Parameters:

Port	Ningbo Or Shanghai
Logo on Body	Acceptable
Packing	Single Packaging, Foam Interlayer
Application	For Collecting Milk And Measuring In Milking Parlor
Thickness	4-6mm
Another Name	Iran Type Glass Milk Meter (Glass Milk Jar)
Display	Scale
Installation Method	Using Bracket To Support And Fix In Milking Parlor
Weight	8 Kg (reference)
Model	HL-G03

Applications:

Chuangpu Milk Meter HL-G03 is a revolutionary product designed for efficient and accurate milk measurement in bovine dairy farming. With its origins in China, this innovative device is equipped with a scale display that allows for precise volume readings, making it an essential tool for dairy farmers. The product is capable of handling volumes of either 26L or 28L, providing flexibility to meet varying farm needs.

One of the standout features of the Chuangpu Milk Meter HL-G03 is its compatibility with cows, making it the ideal solution for dairy farmers looking to track and record milk production. This device serves as a bovine dairy tracker, enabling farmers to monitor lactation cycles and accurately measure milk output. The inclusion of the brand logo on the body of the device is also possible, allowing for customization and brand recognition.

Whether used in small-scale dairy operations or large commercial farms, the Milk Meter offers a range of application occasions and scenarios. Dairy farmers can utilize this product during milking sessions to measure the exact amount of milk produced by individual cows, facilitating efficient herd management and monitoring. The Milk Measuring Bottle functionality of the device ensures that farmers can easily collect and measure milk without any spillage or wastage.

With ports available in Ningbo or Shanghai, the Chuangpu Milk Meter HL-G03 offers convenience and accessibility for farmers across different regions. Its user-friendly design and accurate measurement capabilities make it a valuable asset for any dairy farm seeking to optimize milk production and improve overall efficiency.

Style 3

Product number: HL-G03 创普机械
Product material: Glass Chuang Pu
User target audience: For Cattle
Capacity: 28L
Milk tube interface diameter:
40MM、19.5MM
Usage: Used for milk metering milk flow

Style 4

Product number: HL-G07
Product material: Glass
User target audience: For Sheep
Capacity: 6L
Milk tube interface diameter:
26MM、19MM、31MM
Usage: Used for milk metering milk flow
