Product Description

Product Description:

The Hoof Pad And Glue product is an essential tool for maintaining the health and well-being of your livestock, specifically designed for cow hoof care. This innovative product is a combination of a durable cow hoof pad and specialized glue, providing a comprehensive solution for protecting and supporting your animals' hooves.

With a weight of 25g, the Hoof Pad And Glue is lightweight and easy to handle, making it convenient for regular hoof care routines. Its lightweight design ensures that it does not cause unnecessary strain on the animals during application, allowing for a smooth and efficient process.

The cow hoof pad included in this product is 12CM in length and 2CM in thickness, offering optimal coverage and support for the hoof area. The pad is specifically designed to provide cushioning and protection to the cow's hooves, helping to prevent injuries and promote overall hoof health.

Constructed from high-quality materials, the cow hoof pad is both lightweight and durable, ensuring long-lasting performance and reliability. This ensures that your livestock receives consistent support and protection, enhancing their comfort and well-being.

The Hoof Pad And Glue product features the model HL-Q30A, a proven and trusted model known for its effectiveness in cow hoof care. With this model, you can be confident in the quality and performance of the product, ensuring that your livestock receives the best care possible.

Whether you are a professional farmer or a hobbyist raising cows, the Hoof Pad And Glue product is a valuable addition to your livestock care routine. Its innovative design, lightweight construction, and durable materials make it a practical and reliable solution for maintaining the health of your animals' hooves.

Invest in the Hoof Pad And Glue product today and provide your cows with the support and protection they need for healthy hooves. Ensure their comfort and well-being with this essential cow hoof pad, designed to meet the specific needs of your livestock.

Applications:

The Hoof Pad And Glue product by ChuangPu, model number HL-Q30, is a versatile and essential tool for cow hoof protection and repair. Made from lightweight and durable foam EVA material, this product is designed to provide reliable support and comfort for cows in various situations.

Whether your cows are in need of hoof protection during daily activities or require repair due to wear and tear, the ChuangPu Hoof Pad And Glue is the perfect solution. Its lightweight design ensures that it won't add unnecessary weight or strain to the cow's hooves, making it suitable for long-term use.

One of the key features of this product is its ability to be used with or without shoes. This flexibility allows for customization based on the specific needs of the cow, providing tailored support and protection.

Originating from China, the ChuangPu Hoof Pad And Glue is crafted with quality and precision. Weighing just 25g, it is easy to handle and apply, making it convenient for daily use.

Common application occasions for the Cow Hoof Pad include daily hoof protection during milking, grazing, or walking on rough terrain.

Additionally, it is ideal for repairing damaged hooves and providing extra cushioning for cows with hoof injuries.

Whether you are a dairy farmer, livestock owner, or veterinarian, the ChuangPu Hoof Pad And Glue is a must-have tool for maintaining the health and well-being of your cows. Trust in the durability and effectiveness of this product to keep your cows comfortable and mobile.
