Product Description:

The Obstetric Calf Puller is a manual tool designed to assist in delivering calves during the birthing process. It is commonly referred to as a Calf Extractor Obstetric or Cow Puller Obstetric. This tool is made of high-quality stainless steel, ensuring durability and reliability in assisting with difficult calvings.

Measuring 180 cm in length, this Obstetric Calf Puller provides the necessary reach and leverage needed to safely aid in the delivery of calves. Its long design allows for easier access and maneuverability during the birthing process, making it an essential tool for farmers and veterinarians.

One of the key features of this Calf Extractor Obstetric is its non-slip handles, which provide a secure grip even in challenging conditions. The non-slip design ensures that users can maintain control and exert the necessary force without the risk of slipping or losing grip during the delivery process.

Additionally, the Obstetric Calf Puller is equipped with an adjustable chain, allowing users to customize the tool's length and adapt it to different calving situations. The adjustable chain feature enhances the versatility of this Cow Puller Obstetric, making it suitable for a variety of cow sizes and positions.

Constructed from stainless steel, this Cow Puller Obstetric is built to withstand the rigors of frequent use and demanding calving situations. Its durable design ensures that it can provide reliable assistance during calvings for years to come, making it a valuable investment for any livestock operation.

Overall, the Obstetric Calf Puller is a practical and essential tool for assisting in the delivery of calves. With its manual operation, stainless steel construction, 180 cm length, non-slip handles, adjustable chain, and durable build, this Cow Puller Obstetric is a reliable and effective solution for aiding in calvings and ensuring the safety of both the cow and the newborn calf.

Applications:

The Chuangpu HL-Q10C Bovine Puller Obstetric is a versatile tool designed to assist in delivering calves during the birthing process. This product is made in China and weighs 6.93 Kg, providing durability and reliability when handling obstetric procedures. The package includes 1 Obstetric Calf Puller and 2 ropes, ensuring all necessary components are readily available for use.

With a width of 60 cm, the Chuangpu HL-Q10C Bovine Puller Obstetric is suitable for a variety of applications in different scenarios. Farmers and veterinarians can confidently rely on this tool to aid in the safe and efficient delivery of calves, especially in cases where additional assistance is required.

The Chuangpu HL-Q10C Bovine Puller Obstetric is ideal for use in various product application occasions, such as:

- Veterinary clinics: Veterinarians can utilize this tool during calving seasons to provide necessary assistance to cows in labor.
- Livestock farms: Farmers can keep this product on hand to ensure quick and effective intervention during difficult births.
- Agricultural settings: The obstetric calf puller can be a valuable addition to agricultural operations that involve breeding and calving processes.

Additionally, the Chuangpu HL-Q10C Bovine Puller Obstetric is suitable for scenarios where immediate action is required to prevent complications during the birthing process. Its design and functionality make it a crucial instrument for safely managing challenging deliveries, offering a reliable solution for birthing forceps obstetric procedures.

Support and Services:

The Obstetric Calf Puller product comes with comprehensive Product Technical Support and Services to assist users in effectively using the device. Our team of experts is available to provide guidance on product assembly, operation, and troubleshooting to ensure smooth performance.

Packing and Shipping:

Product Packaging:

The Obstetric Calf Puller is carefully packaged in a sturdy box to ensure its safety during shipping. The product is secured with foam padding to prevent any damage or movement during transit.

Shipping:

Orders for the Obstetric Calf Puller are processed promptly and shipped via reliable carriers. Customers can track their shipments using the provided tracking information to know the exact delivery date. We strive to deliver your order in a timely manner and in perfect condition.
