

Silver Artificial Insemination Gun Durable Long-lasting Materials

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-SJQ-II
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000PCS /Month

Product Specification

- Flexibility: Flexible And Adjustable For Different Animal Sizes
- Feature: The Base Is A Resistance Ring That Clamps The Outer Tube
- Material: Stainless Steel 304
- Length: 467MM
- Safety: Designed To Minimize Risk Of Injury To Animals
- Sterilization: Can Be Sterilized For Multiple Uses
- Usage: Artificial Insemination In Livestock
- Function: Precise And Controlled Delivery Of Semen
- Highlight: **Insemination Gun durable,
Silver Artificial Insemination Gun**

Product Description:

The Insemination Gun, also known as a Reproduction Injection Gun, Conception Syringe Instrument, or Reproductive Syringe Gun, is a specialized tool designed for the precise and controlled delivery of semen during animal breeding. This innovative product is essential for artificial insemination procedures and is widely used in the agricultural and veterinary industries.

One of the key features of the Insemination Gun is its unique design, which includes a resistance ring that clamps the outer tube in place. This feature ensures stability and accuracy during the insemination process, allowing for optimal placement of the semen for successful fertilization.

With a focus on safety, the Insemination Gun is meticulously crafted to minimize the risk of injury to animals during insemination procedures. The thoughtful design and construction of this tool prioritize the well-being of the animals involved, making it a reliable and trusted choice for breeders and veterinarians.

Constructed from high-quality materials, the Insemination Gun is built to withstand the rigors of frequent use and is designed for long-lasting durability. This ensures that the tool remains reliable and efficient, providing consistent performance over time.

Whether used in large-scale agricultural operations or smaller-scale breeding programs, the Insemination Gun offers a reliable solution for the precise and controlled delivery of semen. Its innovative design, focus on safety, and durable construction make it an essential tool for any breeding program looking to achieve successful reproductive outcomes.

Features:

Product Name: Insemination Gun

Design: Ergonomic Design For Easy Handling

Usage: Artificial Insemination In Livestock

Note: Needs To Be Paired With A Semen Gun Jacket For Use

Insemination Volume: 0.5MI And 0.25MI Optional

Color: Silver

Technical Parameters:

Flexibility	Flexible And Adjustable For Different Animal Sizes
Note	Needs To Be Paired With A Semen Gun Jacket For Use
Usage	Artificial Insemination In Livestock
Function	Precise And Controlled Delivery Of Semen
Sterilization	Can Be Sterilized For Multiple Uses
Name	Insemination Gun
Material	Stainless Steel 304
Length	467MM
Design	Ergonomic Design For Easy Handling
Feature	The Base Is A Resistance Ring That Clamps The Outer Tube

Applications:

The **Chuangpu Insemination Gun** (Model: HL-SJQ-II) is a versatile and reliable tool designed in China for animal reproduction procedures. With its sleek silver color and innovative design, this **Reproductive Syringe Device** is ideal for various applications in animal husbandry.

One of the key features of the Chuangpu Insemination Gun is its flexibility, allowing it to be easily adjusted for different animal sizes. This makes it a valuable tool for breeders working with a variety of animals, from small livestock to large animals.

Designed to minimize the risk of injury to animals, the Chuangpu Insemination Gun ensures safe and efficient insemination procedures. Its precise engineering and user-friendly design make it a top choice for breeders and veterinarians looking for a reliable **Reproductive Syringe Gun** for assisted insemination.

With a length of 467mm, the Chuangpu Insemination Gun offers excellent reach and control during insemination procedures. Whether used in a professional breeding facility or on a farm, this **Assisted Insemination Prop** is a must-have tool for successful reproductive management.

Product Application Occasions and Scenarios:

Artificial insemination of dairy cows for improved breeding outcomes

Insemination of pigs to enhance genetic diversity

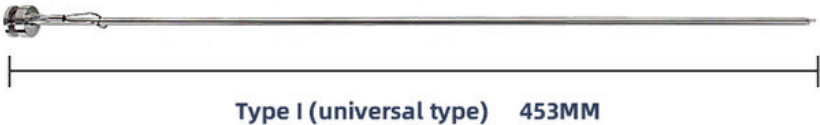

Breeding programs for sheep and goats to maintain desirable traits

Assisted reproduction techniques in equine breeding facilities

INSEMINATING SYRINGE

WE ALWAYS ADHERE TO RIGOROUS MANAGEMENT, THE FOUNDATION OF METICULOUS MANUFACTURING,
PRODUCE PRODUCTS THAT MEET THE MARKET'S RULES AND CUSTOMER NEEDS
