

453MM Artificial Insemination Gun Needs To Be Paired With Semen Gun Jacket

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-SJQ-I
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000PCS /Month

Product Specification

- Feature: The Base Is A Wire Lock Stuck To The Outer Tube
- Length: 453MM
- Function: Precise And Controlled Delivery Of Semen
- Safety: Designed To Minimize Risk Of Injury To Animals
- Color: Silver
- Accuracy: Accurate And Consistent Delivery Of Semen
- Insemination Volume: 0.5MI And 0.25MI Optional
- Sterilization: Can Be Sterilized For Multiple Uses
- Highlight: **Artificial Insemination Gun With Jacket, Artificial Insemination Gun 453mm, 453mm Jacket Artificial Insemination Gun**

Product Description:

The Insemination Gun is a crucial tool for precise and controlled delivery of semen during artificial insemination procedures. With a length of 453mm, this product is designed to provide accurate and consistent delivery of semen, ensuring the best possible chances for successful conception.

The key function of the Insemination Gun is to serve as a procreative injection prop, acting as a fertility injection instrument that aids in the insemination process. Its design allows for a precise and controlled delivery of semen, making it an essential tool for veterinary professionals and breeders involved in animal reproduction.

One of the standout features of the Insemination Gun is its easy-to-clean and maintain properties, ensuring that it can be efficiently sterilized and prepared for repeated use. This aspect is particularly important in maintaining the hygiene and integrity of the insemination process, safeguarding the health of both the animals and the success of the procedure.

For optimal performance, it is recommended to pair the Insemination Gun with a Semen Gun Jacket, as this combination ensures a seamless and effective insemination process. The Semen Gun Jacket serves as a complementary accessory that enhances the functionality and ease of use of the Insemination Gun, further improving its overall performance.

Features:

Product Name: Insemination Gun
Length: 453MM
Usage: Artificial Insemination In Livestock
Safety: Designed To Minimize Risk Of Injury To Animals
Insemination Volume: 0.5MI And 0.25MI Optional
Durability: Made Of High-quality Materials For Long-lasting Use

Technical Parameters:

Color	Silver
Sterilization	Can Be Sterilized For Multiple Uses
Insemination Volume	0.5ml And 0.25ml Optional
Accuracy	Accurate And Consistent Delivery Of Semen
Flexibility	Flexible And Adjustable For Different Animal Sizes
Cleaning	Easy To Clean And Maintain
Feature	The Base Is A Wire Lock Stuck To The Outer Tube
Design	Ergonomic Design For Easy Handling
Safety	Designed To Minimize Risk Of Injury To Animals
Material	Stainless Steel 304

Applications:

The Insemination Gun by Chuangpu, model number HL-SJQ-I, is a versatile tool designed for precise and controlled delivery of semen in various procreative scenarios. Made with high-quality Stainless Steel 304, this insemination gun hails from China and offers a safe and efficient solution for artificial insemination in animals.

Whether in a veterinary clinic, animal breeding center, or on a farm, the Insemination Gun proves to be a reliable procreative injection prop for facilitating reproduction processes. Its functional design ensures a seamless insemination process while minimizing the risk of injury to animals, making it a preferred choice among professionals in the field.

One of the key features of this insemination gun is its sterilizability, allowing for multiple uses without compromising on hygiene or safety standards. This attribute further enhances its utility and cost-effectiveness for users who require a durable and reliable reproduction injection gun for regular use.
