

## 200mm Height Stainless Steel Round Drum Corrosion Resistant Durable for Industrial Storage Needs

Our Product Introduction

more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL - B11A
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 500PCS /Month

### Product Specification

- Height: 200mm
- Usage: Storage And Transportation Of Liquids, Powders, Granules, Soup,etc
- Material: SUS304 / SUS316L
- Application Fields: Can Be Used In Hotels, Restaurants, Dairy Processing Plants, Pharmaceutical Factories, Chemical Factories, Etc
- Diameter: 200mm
- Feature: Corrosion-resistant, Acid And Alkali Resistant, Impact-resistant, Can Be Heated Over An Open Flame
- Handle: Yes
- Thickness: 1.2mm
- Highlight: **Industrial Storage Round Drum,**

### Product Description:

The Stainless Steel Cylindrical Barrel is a durable and versatile metal cylindrical container designed for storage and transportation of various substances such as liquids, powders, granules, soup, and more. Crafted from high-quality materials, this sleek steel storage cylinder is available in two different material options: SUS304 and SUS316L, ensuring reliability and longevity in different environments. With a volume capacity of 6 liters, this stainless steel cylinder container offers ample space for your storage needs. The 200mm diameter of the barrel provides a compact yet spacious design, ideal for both home and commercial use. The inclusion of a handle further enhances the practicality of this container, allowing for easy carrying and maneuvering.

Whether you need to store ingredients in a kitchen, transport liquids in a laboratory, or store granules in an industrial setting, this stainless steel cylindrical barrel is a versatile solution. Its sturdy construction and corrosion-resistant properties make it suitable for a wide range of applications, ensuring that your contents remain safe and secure during storage and transportation.

The sleek design of this metal cylindrical container not only adds a touch of elegance to your storage space but also ensures efficient use of available space. Its cylindrical shape allows for easy stacking and placement in various settings, making it a practical choice for both residential and commercial use.

In conclusion, the Stainless Steel Cylindrical Barrel is a reliable and versatile storage solution that combines durability, functionality, and style. Whether you need to store liquids, powders, granules, or other substances, this stainless steel cylinder container is designed to meet your needs with its high-quality construction and practical design. Invest in this sleek steel storage cylinder today and experience the convenience and efficiency it brings to your storage and transportation tasks.

### Features:

Product Name: Stainless Steel Cylindrical Barrel

Volume: 6L

Feature: Corrosion-resistant, Acid And Alkali Resistant, Impact-resistant, Can Be Heated Over An Open Flame

Material: SUS304 / SUS316L

Height: 200mm

Handle: Yes

### Technical Parameters:

|                    |  |
|--------------------|--|
| Diameter           | 200mm  |
| Sealing Ring       | There is sealing ring in lid   |
| Usage              | Storage and transportation of liquids, powders, granules, soup, etc  |
| Handle             | Yes  |
| Material           | SUS304 / SUS316L   |
| Application Fields | Can be used in hotels, restaurants, dairy processing plants, pharmaceutical factories, chemical factories, etc |
| Feature            | Corrosion-resistant, acid and alkali resistant, impact-resistant, can be heated over an open flame             |
| Height             | 200mm  |
| Thickness          | 1.2mm  |
| Name               | Stainless Steel Chemical Drum  |

### Applications:

The Stainless Steel Cylindrical Barrel by Chuangpu, model number HL-B11A, is a versatile product with a variety of product application occasions and scenarios. Originating from China, this Polished Stainless Steel Barrel is also known as a Stainless Steel Chemical Drum. With a volume of 6L, this Cylindrical Steel Storage Barrel is made from high-quality materials including SUS304 and SUS316L, making it corrosion-resistant and durable. Its sleek design and sturdy construction make it suitable for a wide range of uses.

One of the main product applications for this Stainless Steel Barrel is the storage and transportation of liquids, powders, granules, soup,

and other substances. Its acid and alkali resistance make it ideal for handling a variety of materials, while its impact-resistant nature ensures durability even in tough environments.

Whether you need to store chemicals in a laboratory setting, transport food items in a commercial kitchen, or store liquids in a manufacturing facility, this Sleek Steel Storage Cylinder is up to the task. Its ability to be heated over an open flame also makes it suitable for cooking and heating applications.

Overall, the Stainless Steel Cylindrical Barrel from Chuangpu is a reliable and versatile product that can meet various storage and transportation needs across different industries. Its combination of corrosion resistance, acid and alkali resistance, impact resistance, and heating capabilities make it a valuable asset in any setting where high-quality storage solutions are required.
