

Pneumatic Milk Pulsator LT80 with 2 Plastic Port Plastic Tube

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-P01A LT80
- Minimum Order Quantity: 1 Pcs
- Packaging Details: Carton
- Delivery Time: 7-10 woks day
- Payment Terms: T/T, Western Union
- Supply Ability: 500 Pcs/Month

Product Specification

- Name: Pneumatic Milk Pulsator
- Material: Stainless Steel Shell
- Air Tube: 2 Ports Plastic
- Purpose: Milking Accessories For Cow And Sheep
- Pulse Frequency: 60: 40
- Usage: For Milking Machine Pulsator
- Tube Dia: 9.5mm
- Highlight: **Pneumatic Milk Pulsator,
2 Plastic Port Milk Pulsator**

Product Description

Product Description:

The Pneumatic Milk Pulsator is an essential component for any milking machine pulsator, designed to facilitate efficient and hygienic bovine milking processes. Crafted with a durable stainless steel shell, this pulsator ensures longevity and reliability in farming machine pulsators.

With a tube diameter of 9.5mm, the Pneumatic Milk Pulsator is compatible with various milking machine setups, providing seamless integration and optimal performance. Its pulse frequency of 60:40 enables precise and consistent pulsation, resulting in effective udder milking pulsation for dairy farmers.

Designed specifically for bovine milking pulsator applications, this pulsator is a must-have tool for dairy farms looking to streamline their milking processes. Whether used in small-scale operations or large commercial farms, the Pneumatic Milk Pulsator delivers consistent and reliable performance, ensuring thorough and efficient udder milking pulsation.

Constructed with high-quality materials and precision engineering, this milking machine pulsator is built to withstand the rigors of daily use in demanding farming environments. Its stainless steel shell not only enhances durability but also ensures easy cleaning and maintenance, making it a practical and long-lasting investment for dairy farmers.

The Pneumatic Milk Pulsator offers a user-friendly design that simplifies installation and operation, allowing farmers to focus on milking tasks without unnecessary complications. Its compatibility with standard milking machine setups makes it a versatile and convenient choice for dairy operations of all sizes.

Whether you are upgrading your existing milking system or setting up a new farm, the Pneumatic Milk Pulsator is a reliable and efficient solution for achieving consistent and effective udder milking pulsation. Trust in this quality pulsator to optimize your milking processes and enhance overall productivity on your farm.

Features:

Product Name: Milking Machine Pulsator
Material: Stainless Steel Shell
Name: Pneumatic Milk Pulsator
Purpose: Milking Accessories For Cow And Sheep
Usage: For Milking Machine Pulsator
Tube Dia: 9.5mm

Technical Parameters:

Purpose	Milking Accessories For Cow And Sheep
Usage	For Milking Machine Pulsator
Material	Stainless Steel Shell
Tube Dia	9.5mm
Air Tube	2 Ports, Plastic
Pulse Frequency	60:40
Name	Pneumatic Milk Pulsator

Applications:

The Chuangpu HL-P01A LT80 Bovine Milking Pulsator is a high-quality pneumatic milk pulsator designed for use in milking machines. Manufactured in China, this milking machine pulsator is a reliable and efficient tool for dairy farmers looking to streamline their milking process.

The pulsator operates at a pulse frequency of 60:40, ensuring gentle and consistent pulsation during udder milking. With a stainless steel shell construction, this pulsator is durable and long-lasting, making it suitable for daily use in a dairy farm setting.

Featuring 2 ports and plastic air tubes with a diameter of 9.5mm, the Chuangpu HL-P01A LT80 Bovine Milking Pulsator is easy to install and compatible with various milking machine systems. Its efficient pulsation mechanism helps to stimulate milk flow and improve overall milking efficiency.

The versatile design of this milking machine pulsator makes it suitable for a range of product application occasions and scenarios.

Whether you are milking a small herd of dairy cows or a larger group of livestock, the Chuangpu HL-P01A LT80 Bovine Milking Pulsator can help you achieve optimal milking results.

Whether you are a professional dairy farmer or a hobbyist looking to maintain a healthy herd, this pneumatic milk pulsator is a valuable tool to have in your milking equipment arsenal. Trust Chuangpu for reliable and efficient milking solutions.
