

## 150cc PC Milk Claw with Stainless Steel Base 0.83kg

Our Product Introduction

more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M01B
- Minimum Order Quantity: 1 Pcs
- Packaging Details: Carton
- Delivery Time: 7-10 woks day
- Payment Terms: T/T, Western Union
- Supply Ability: 5000 Pcs/Month

### Product Specification

- Claw Cap: PC
- Milk Outlet Dia: 19mm
- Compatibility: Fits Most Milking Machines
- Model: HL-M01B
- Capacity: 150CC
- Weight: 0.83kg
- Liner Outlet Dia: 13mm
- Air Outlet Dia: 9.5mm
- Highlight: **PC milk claw, stainless steel base milk claw**

## Product Description

### Product Description:

The Milking Machine Claw is equipped with a Liner Outlet Dia of 13mm, providing a precise and secure fit for seamless milk extraction. This feature enables efficient milk flow while maintaining a consistent vacuum level throughout the milking process. The 13mm Liner Outlet Dia is carefully crafted to enhance milk collection and prevent spillage, making it an essential component for dairy farmers seeking optimal results.

Compatibility is key when it comes to milking equipment, and the Milking Machine Claw does not disappoint. It is expertly designed to fit most milking machines, offering versatility and ease of use for various dairy setups. Whether you have a small-scale operation or a larger dairy farm, this milk harvesting claw is a reliable choice that seamlessly integrates into your milking system.

With a generous Capacity of 150CC, the Milking Machine Claw ensures efficient milk collection without the need for frequent emptying. This capacity allows for continuous milking sessions without interruptions, saving time and effort for dairy farmers. The 150CC capacity is ideal for managing moderate to high milk volumes, catering to the needs of different milking setups.

Designed for superior performance, the Milking Machine Claw boasts the model HL-M01B, a top-of-the-line option for dairy farmers seeking reliability and durability. The HL-M01B model is built to withstand the rigors of daily milking operations, ensuring long-lasting functionality and consistent results. This model is a testament to quality craftsmanship and innovative design, making it a standout choice in the realm of milk harvesting claws.

Ensuring efficient milk extraction, the Milking Machine Claw features a Milk Outlet Dia of 19mm, facilitating smooth milk flow from the claw to the collection system. The 19mm Milk Outlet Dia is optimized for quick and effective milk transfer, minimizing downtime and maximizing productivity during milking sessions. This feature enhances milk quality and collection efficiency, contributing to overall operational success for dairy farmers.

In conclusion, the Milking Machine Claw is a reliable and efficient dairy machine accessory that enhances milk harvesting processes for dairy farmers. With its precision-engineered design, versatile compatibility, generous capacity, and top-tier model designation, this milk harvesting claw is a must-have for any modern milking system. Invest in the Milking Machine Claw today and experience the difference in milk extraction efficiency and overall dairy farm performance.

### Features:

Product Name: Milking Machine Claw

Air Outlet Dia: 9.5mm

Capacity: 150CC

Model: HL-M01B

Compatibility: Fits Most Milking Machines

Weight: 0.83kg

### Technical Parameters:

Milk Outlet Dia	19mm
Weight	0.83kg
Claw Cap	PC
Model	HL-M01B
Liner Outlet Dia	13mm
Capacity	150CC
Compatibility	Fits Most Milking Machines
Air Outlet Dia	9.5mm

### Applications:

The Chuangpu HL-M01B Milking Machine Claw is a versatile and high-quality product designed for milking cows in various dairy farm settings. With its origin in China, this milking claw is compatible with most milking machines, making it a convenient and practical choice for dairy farmers.

The milking claw is equipped with an air outlet diameter of 9.5mm, ensuring optimal suction power for efficient milking operations. Its 150CC capacity allows for the collection of a significant amount of milk, perfect for dairy cow milking sessions.

Designed specifically for milking cows, this suction claw for cattle features a milk outlet diameter of 19mm and a liner outlet diameter of 13mm. These specifications ensure a smooth flow of milk from the cow to the collection container, minimizing spillage and waste.

The Chuangpu HL-M01B Milking Machine Claw is ideal for various milking application occasions and scenarios. Whether you are milking a small herd of dairy cows or operating a large-scale dairy farm, this milking claw is a reliable and efficient tool for ensuring thorough and hygienic milk extraction.
