Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-M03B
- Minimum Order Quantity: 1 Pcs
- Packaging Details: Carton
- Delivery Time: 7-10 woks day
- Payment Terms: T/T, Western Union
- Supply Ability: 5000 Pcs/Month

Product Specification

- Liner Outlet Dia: 13.5mm
- Weight: 0.5kg
- Air Outlet Dia: 10mm
- Compatibility: Fits Most Milking Machines
- Claw Cap: PC
- Capacity: 300CC
- Model: HL-M03B
- Milk Outlet Dia: 22mm
- Highlight: **Stainless Steel Milk Claw,
Shut Off Valve Milk Claw, 300cc Milk Claw**

Product Description

Product Description:

The Milking Machine Claw is a crucial component in any dairy farm setup, designed to efficiently extract milk from cattle during milking sessions. This high-quality milk suction claw is a reliable and durable device that ensures smooth and effective milk extraction, making it an essential tool for dairy farmers.

Weighing just 0.5kg, this suction claw is lightweight and easy to handle, minimizing operator fatigue during long milking sessions. Its compact size and ergonomic design make it user-friendly and practical for daily use in a busy farming environment.

The Milking Machine Claw features an air outlet diameter of 10mm, allowing for optimal airflow during the milking process. This ensures efficient milk extraction and helps maintain a steady vacuum pressure for consistent results. Additionally, the liner outlet diameter of 13.5mm is designed to accommodate various teat sizes, making it suitable for use with different cattle breeds.

Constructed with a durable PC (polycarbonate) claw cap, this milking claw is built to withstand the rigors of daily milking operations. The PC material is known for its strength and resilience, ensuring long-lasting performance and reliability in demanding farm conditions. One of the key advantages of the Milking Machine Claw is its broad compatibility, as it is designed to fit most milking machines commonly used in dairy farms. This universal compatibility makes it a versatile and practical choice for farmers with different milking setups, offering flexibility and convenience in dairy operations.

Whether you are milking cows, goats, or sheep, this suction claw for cattle is a versatile tool that can adapt to various milking needs. Its efficient design and reliable performance make it an indispensable asset for dairy farmers looking to streamline their milking process and maximize productivity.

In conclusion, the Milking Machine Claw is a reliable and efficient milking claw for cows and other livestock, offering durability, compatibility, and ease of use for dairy farmers. With its lightweight construction, optimal airflow design, and durable PC claw cap, this suction claw is a practical and versatile tool that can enhance the efficiency of milking operations on any farm.

Features:

Product Name: Milking Machine Claw

Claw Cap: PC

Compatibility: Fits Most Milking Machines

Milk Outlet Dia: 22mm

Capacity: 300CC

Model: HL-M03B

Technical Parameters:

Compatibility	Fits Most Milking Machines
Weight	0.5kg
Capacity	300CC
Model	HL-M03B
Claw Cap	PC
Liner Outlet Dia	13.5mm
Milk Outlet Dia	22mm
Air Outlet Dia	10mm

Applications:

The Chuangpu HL-M03B milking machine claw is a high-quality product designed for use in dairy farms and milk production facilities. This cow milk machine claw is specifically engineered for efficient milk suction and is ideal for use in various milking scenarios.

With a claw cap made of durable PC material, this suction claw for cattle ensures a reliable and long-lasting performance. The lightweight design, weighing only 0.5kg, makes it easy to handle and convenient to use during milking operations.

The liner outlet diameter of 13.5mm and milk outlet diameter of 22mm are carefully chosen to optimize milk flow and suction efficiency. This makes the HL-M03B model suitable for a wide range of dairy cows and milking systems.

Whether you are operating a small-scale dairy farm or a large commercial milk production facility, the Chuangpu milking machine claw is a versatile and reliable tool for all your milking needs. Its sturdy construction and efficient design make it the perfect choice for maximizing milk extraction while ensuring the comfort and well-being of the animals.

From daily milking routines to occasional milking sessions, this milk suction claw is a valuable addition to any dairy operation. Its ease of use, durability, and consistent performance make it a must-have tool for dairy farmers and milk producers.

Manufactured in China, the Chuangpu HL-M03B model sets the standard for quality and innovation in the dairy industry. Trust in the reliability and effectiveness of this milking machine claw to streamline your milking process and enhance productivity.
