Product Description

Product Description:

Constructed with a Claw Cap made of PSU material, this milking machine claw is durable and reliable for long-term use. The PSU material provides strength and resilience to withstand the rigors of daily milking routines.

Weighing only 0.37kg, this dairy machine claw is lightweight yet sturdy, making it easy to handle and operate during milking sessions. The lightweight design also helps reduce strain on the milking machine, ensuring smooth performance and longevity.

The Claw Base of this milking machine claw is crafted from high-quality stainless steel (SS), offering corrosion resistance and durability. The SS Claw Base ensures hygiene and cleanliness during the milking process, meeting the highest standards of dairy industry regulations.

Featuring a Milk Outlet Diameter of 22.5mm, this milking machine claw provides efficient milk flow and extraction. The optimized diameter allows for quick and thorough milk collection, enhancing the productivity of the milking process.

This milking machine claw is designed for compatibility with most milking machines, offering versatility and ease of integration. Whether you are using a traditional milking setup or a modern milking system, this claw is suitable for various equipment, ensuring seamless operation.

Overall, the Milking Machine Claw is a reliable and efficient component for dairy farmers and milk producers, facilitating the milk extraction process with precision and ease. With its durable construction, lightweight design, and compatibility features, this udder suction claw is a valuable asset for any dairy operation.

Features:

Product Name: Milking Machine Claw

Weight: 0.37kg

Claw Base: SS

Claw Cap: PSU

Milk Outlet Dia: 22.5mm

Model: HL-M03C

Technical Parameters:

Milk Outlet Dia	22.5mm
Model	HL-M03C
Liner Outlet Dia	16mm
Claw Cap	PSU
Weight	0.37kg
Capacity	340CC
Compatibility	Fits Most Milking Machines
Claw Base	SS

Applications:

The Chuangpu HL-M03C dairy machine claw is a versatile and reliable product that is suitable for a wide range of milking applications. With a liner outlet diameter of 16mm, this claw is compatible with most milking machines, making it a convenient option for dairy farmers. One of the key features of the Chuangpu HL-M03C dairy machine claw is its capacity of 340CC, allowing for efficient and effective milking operations. Despite its high capacity, this claw is lightweight, weighing only 0.37kg, making it easy to handle and transport.

Due to its compatibility with most milking machines, the Chuangpu HL-M03C dairy machine claw is suitable for a variety of product application occasions and scenarios. Whether you have a small-scale dairy farm or a larger commercial operation, this claw can help streamline your milking process and improve overall efficiency.

Whether you are milking cows, goats, or sheep, the Chuangpu HL-M03C dairy machine claw is a reliable choice that can meet your needs. Its durable construction and efficient design make it a valuable tool for any dairy farmer looking to optimize their milking operations.

With its origins in China, the Chuangpu HL-M03C dairy machine claw combines quality craftsmanship with practical functionality. This claw is designed to withstand the demands of daily milking routines and provide consistent performance over time.
