

Storage Solution 1.2mm Thickness Stainless Steel Cylindrical Drum SUS304 / SUS316L For Chemical Industry

Our Product Introduction

more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL - B11A
- Minimum Order Quantity: 1 PCS
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 500PCS /Month

Product Specification

- Sealing Ring: There Is Sealing Ring In Lid
- Usage: Storage And Transportation Of Liquids, Powders, Granules, Soup, etc
- Handle: Yes
- Feature: Corrosion-resistant, Acid And Alkali Resistant, Impact-resistant, Can Be Heated Over An Open Flame
- Material: SUS304 / SUS316L
- Height: 600mm
- Thickness: 1.2mm
- Name: Stainless Steel Chemical Drum
- Highlight: **Chemical Industry Cylindrical Drum, Stainless Steel Cylindrical Drum, 1.2mm Stainless Steel Cylindrical Drum**

Product Description:

The Stainless Steel Cylindrical Barrel, also known as the Stainless Steel Chemical Drum, is a versatile and durable storage solution designed for various industries. With a height of 600mm, this Cylindrical Steel Storage Barrel offers ample storage capacity while maintaining a compact footprint.

Constructed from high-quality stainless steel, this Metal Cylindrical Drum is built to last and withstand tough conditions. The material is known for its corrosion-resistant properties, making it ideal for environments where exposure to moisture or harsh chemicals is a concern. In addition to being corrosion-resistant, this Metal Cylindrical Drum is also acid and alkali resistant, ensuring that it can safely store a wide range of liquids and substances.

One of the standout features of this Stainless Steel Cylindrical Barrel is its impact-resistant design. This ensures that the drum can withstand accidental bumps or knocks without compromising its structural integrity, providing peace of mind during handling and transportation.

Another key feature of this Cylindrical Steel Storage Barrel is its ability to be heated over an open flame. This makes it suitable for applications where heating or processing of contents is required, offering versatility in various industrial processes.

The lid of the Stainless Steel Chemical Drum is equipped with a sealing ring, providing a secure and airtight closure to prevent leaks and spills. This feature is essential for maintaining the integrity of the stored contents and ensuring safety during storage and transportation. With its robust construction and versatile design, the Stainless Steel Cylindrical Barrel finds application in a wide range of industries. It can be used in hotels, restaurants, dairy processing plants, pharmaceutical factories, chemical factories, and more. Whether storing ingredients, chemicals, or other substances, this Metal Cylindrical Drum is a reliable solution for various storage needs.

Features:

Metal Cylindrical Drum: Stainless Steel Cylindrical Barrel

Volume: 170L

Diameter: 600mm

Material: SUS304 / SUS316L

Usage: Storage And Transportation Of Liquids, Powders, Granules, Soup, etc

Application Fields: Can Be Used In Hotels, Restaurants, Dairy Processing Plants, Pharmaceutical Factories, Chemical Factories, Etc

Industrial Cylindrical Tank: Stainless Steel Cylindrical Barrel

Polished Stainless Steel Barrel: Stainless Steel Cylindrical Barrel

Technical Parameters:

Feature	Corrosion-resistant; Acid And Alkali Resistant; Impact-resistant; Can Be Heated Over An Open Flame
Usage	Storage And Transportation Of Liquids, Powders, Granules, Soup, etc
Handle	Yes
Diameter	600mm
Height	600mm
Volume	170L
Name	Stainless Steel Chemical Drum
Application Fields	Can Be Used In Hotels, Restaurants, Dairy Processing Plants, Pharmaceutical Factories, Chemical Factories, etc
Sealing Ring	There Is Sealing Ring In Lid
Thickness	1.2mm

Applications:

The Chuangpu Stainless Steel Chemical Drum, model HL - B11A, is a versatile industrial cylindrical tank suitable for a wide range of

application fields. With a diameter of 600mm and a thickness of 1.2mm, this cylindrical steel storage barrel is designed to meet the demands of various industries.

Thanks to its durable stainless steel construction, this polished stainless steel barrel is ideal for use in hotels, restaurants, dairy processing plants, pharmaceutical factories, chemical factories, and more. The sturdy handle ensures easy transportation and handling, making it convenient for different scenarios.

Whether it's storing chemicals, transporting liquids, or processing materials, the Chuangpu Stainless Steel Chemical Drum is a reliable solution for your needs. Its high-quality materials and craftsmanship from China guarantee long-lasting performance and resistance to corrosion.
