

## Horn Removal Tools 220mm Blade Dia. Cow Dehorner Designed for Livestock Management

Our Product Introduction

more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

### Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-Q15A-II
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 7-10 working days
- Payment Terms: T/T, Western Union,
- Supply Ability: 500SETS/Month

### Product Specification

- Function: Remove The Horns From (an Animal)
- Weight: 7.3Kg
- Animal: Suitable For Cow
- Blade Dia.: 220mm
- Resistance: Rust And Corrosion
- Material: Steel
- Safety: Yes
- Power: 1700W
- Highlight: 220mm blade cow dehorner, livestock dehorning tool, horn removal tool for cattle

### Product Description:

The Dehorning Tools are essential livestock horn removal devices designed to efficiently and safely remove horns from cattle. These horn removal tools are a critical component of livestock management, ensuring the safety of both animals and handlers during the dehorning process.

Constructed from durable steel, these dehorning tools are built to withstand the rigors of regular use in agricultural settings. The sturdy material ensures that the tools provide reliable performance, making them a valuable long-term investment for livestock farmers.

With a power rating of 1700W, these dehorning tools deliver the necessary strength and efficiency to effectively remove horns from cattle. The high power output ensures quick and precise removal, minimizing stress and discomfort for the animals.

One of the standout features of these dehorning tools is their 1-second corner removal capability. This innovative feature allows for swift and accurate removal of horn corners, streamlining the dehorning process and reducing the overall time required for the procedure.

Weighing 7.3kg, these dehorning tools strike a balance between sturdiness and portability. The manageable weight makes it easy for handlers to maneuver the tools during dehorning, ensuring optimal control and precision throughout the process.

The Dehorning Tools come packed in a sturdy carton, providing secure storage and transportation for the devices. The carton packaging helps protect the tools from damage during handling and shipping, ensuring that they arrive in optimal condition for immediate use.

Whether you are a seasoned livestock farmer or a newcomer to cattle management, these dehorning tools offer a reliable solution for horn removal. Their durable steel construction, high power rating, innovative features, and convenient packaging make them a versatile and efficient choice for bovine horn disbudding.

### Features:

Product Name: Dehorning Tools

Resistance: Rust And Corrosion

Feature: 1 Second Corner Removal

Voltage: 220V/50Hz

Material: Steel

Safety: Yes

### Technical Parameters:

Voltage	220V/50Hz
Animal	Suitable For Cow
Rotating Speed	8500r/Min
Packing	Carton
Resistance	Rust And Corrosion
Usage	Dehorning
Material	Steel
Weight	7.3Kg
Function	Remove The Horns From (an Animal)
Type	Electric Cutting

### Applications:

When it comes to efficient and safe horn removal procedures for cattle, the Chuangpu HL-Q15A-II Dehorning Tools are the ideal solution. This electric cutting tool, originating from China, is specifically designed for the safe and effective removal of horns from cattle.

The HL-Q15A-II is equipped with a 220mm blade diameter and operates at a power of 1700W, making it a powerful and reliable tool for dehorning tasks. Its electric cutting mechanism ensures precision and speed in the horn removal process, allowing for quick and efficient procedures.

Safety is a top priority when using the Chuangpu Dehorning Tools. With its well-designed safety features, users can confidently carry out

dehorning tasks without compromising the well-being of the animals. The tools are designed to minimize the risk of accidents and ensure a smooth dehorning process.

These Cattle Dehorning Equipment are suitable for a variety of applications and scenarios. They can be used in veterinary practices, farms, or agricultural settings where dehorning procedures are necessary. The tools come packed in a sturdy carton, ensuring that they can be transported and stored safely.

Whether it's dehorning young calves or adult cattle, the Chuangpu HL-Q15A-II Dehorning Tools offer a reliable and efficient solution. Their electric cutting type provides the necessary power and precision to carry out dehorning tasks effectively. With safety features in place, users can trust in the quality and performance of these Cattle Dehorning Equipment.

# STYLE 3:HL-Q15A-II

REMOVING HORN PREVENTS COW FROM GETTING HURT IN FIGHTS, ESPECIALLY THE BREAST PART IS NOT GORED BY THE FOLLOWING COW HORN. THE COWS AFTER DEHORNING ARE QUIETER AND EASIER TO MANAGE.
