### Product Description:

Introducing our top-of-the-line Horn Debudding Instruments for all your cow dehorning needs. Our premium Dehorning Tools are meticulously crafted with high-quality stainless steel handles, ensuring durability and reliability for efficient livestock horn removal. With no wire saw sawtooth, this manual dehorning method is safe and effective for both the animals and the users.

Each set of our Cow Dehorning Supplies comes securely packaged in a carton, providing convenience and protection during storage and transportation. The package includes a 10-meter wire length, giving you ample resources to tackle multiple dehorning tasks without interruption.

Our Livestock Horn Removal Devices are designed to streamline the dehorning process, making it easier and more efficient for farmers and ranchers to manage their herds. The stainless steel handles offer a comfortable grip, allowing users to maintain control and precision during operation.

With our Dehorning Tools, you can confidently and humanely remove horns from cattle, ensuring the safety and well-being of both the animals and the handlers. Say goodbye to cumbersome and outdated dehorning methods and upgrade to our advanced manual dehorner for superior results.

Invest in the best for your livestock and experience the difference with our Horn Debudding Instruments. Trust in our expertise and commitment to providing high-quality cow dehorning supplies that meet the demands of modern agriculture.

### Features:

Product Name: Dehorning Tools -----

Sharpness: Sharp

Name: Horn Removal Circular Saw

Wire Length: 10M

Material: Stainless Steel 304

Consists of: Handle And Wire Saw

### Technical Parameters:

Name -----	Horn Removal Circular Saw -----
Sharpness	Sharp
Durability	Rust-resistant
Handle Material	Stainless Steel
Model	HL-Q23
Material	Stainless Steel 304
Dehorning Method	Manual
Package	Carton
Feature	The Tool Is Reusable With Low Consumables, Capable Of Handling The Horn Removal Of 50 Cows
Wire Saw Sawtooth	No

### Applications:

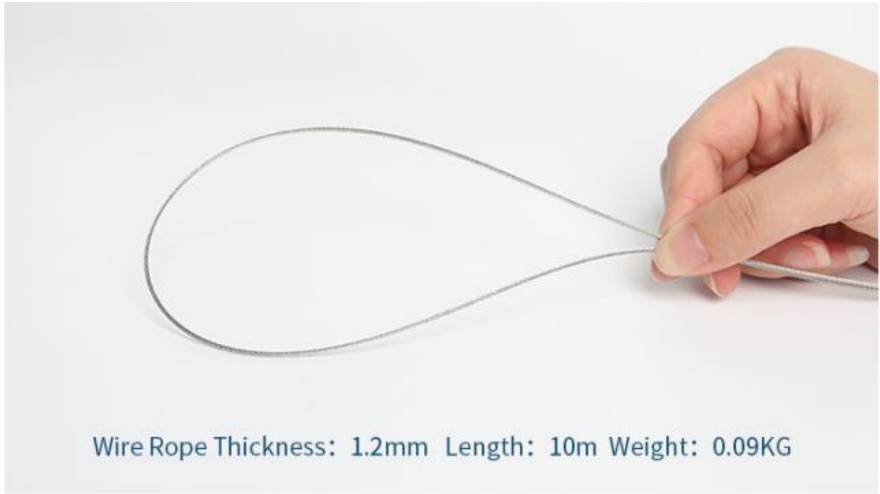

Cow Dehorning Supplies are essential tools for farmers and veterinarians to safely and effectively remove horns from cattle. One such tool is the Horn Removal Circular Saw, specifically the HL-Q23 model from the brand Chuangpu.

Designed and manufactured in China, the Chuangpu HL-Q23 Dehorning Tool is made of high-quality Stainless Steel 304, ensuring durability and rust-resistance. The handle material is also Stainless Steel, providing a sturdy grip for precise and controlled dehorning procedures.

This Horn Debudding Instrument is suitable for various occasions and scenarios in the agricultural and veterinary fields. It can be used in livestock farms, dairy farms, and veterinary clinics to dehorn cattle safely and efficiently.

Due to its durable construction and rust-resistant properties, the Chuangpu HL-Q23 Dehorning Tool is ideal for frequent use in demanding environments. Its precise circular saw design allows for clean and quick horn removal, minimizing stress and discomfort for the animals. When it comes to packaging, this Horn Debudding Instrument is conveniently packed in a carton, making it easy to store and transport between different locations. Whether dehorning young calves or adult cattle, the HL-Q23 model offers reliability and effectiveness in managing horn growth.

Farmers and veterinarians can rely on the Chuangpu HL-Q23 Dehorning Tool for safe and humane horn removal procedures, ensuring the well-being of the animals and the efficiency of the dehorning process.
