Basic Information

- Place of Origin: China
- Brand Name: Chuangpu
- Model Number: HL-MP17
- Minimum Order Quantity: One Set
- Price: Negotiable
- Packaging Details: Carton
- Delivery Time: 7-10 working days
- Payment Terms: T/T, L/C, Western Union, MoneyGram
- Supply Ability: 500SETS/Month

Product Specification

- Number Of Blade: 4
- Wattage: 550W
- Power Source: Electric
- Airflow Capacity: 32000m³/h
- Mounting Type: Wall Mount
- Protection Level: IP55
- Fan Diameter: 1m
- Noise Level: 69 DB

Product Description:

Introducing our innovative Cow Barn Fans, specifically designed to enhance air circulation and ventilation within bovine barn enclosures. These high-quality fans are essential for maintaining optimal airflow, creating a comfortable environment for livestock, and promoting overall well-being.

Our Cow Barn Fans feature a sleek design with a color option of Silver/Blue, adding a modern touch to any agricultural setting. The blades are constructed from durable 430 # stainless steel, ensuring longevity and efficient air movement. The robust construction of these fans makes them suitable for heavy-duty use in livestock barns.

Powered by electricity, these Bovine Barn Enclosure Fans provide a reliable and consistent source of ventilation. The electric power source enables these fans to operate efficiently, contributing to the circulation of fresh air and the removal of excess heat and moisture from the barn environment.

The model name, Farm Fan, signifies the practical and farm-friendly design of these livestock barn air circulators. They are specifically engineered to meet the unique ventilation needs of bovine enclosures, ensuring that the animals are kept cool and comfortable even in challenging weather conditions.

Operating at a voltage of 380V 50Hz, our Cow Barn Fans deliver powerful performance, effectively circulating air throughout the barn space. The high voltage capacity of these fans enables them to cover larger areas, making them ideal for use in spacious livestock barns and facilities.

Investing in our Bovine Enclosure Air Movers is a smart choice for any livestock farmer looking to improve air quality and create a healthy environment for their animals. These fans not only help in regulating temperature but also reduce the risk of respiratory issues and heat stress among the livestock.

Whether you have a small-scale farm or a large commercial operation, our Cow Barn Fans are versatile and efficient solutions for enhancing ventilation and air circulation. With their durable construction, reliable electric power source, and powerful performance, these fans are a valuable addition to any livestock barn.

Experience the difference that our Cow Barn Fans can make in your bovine enclosure today. Choose quality, reliability, and performance for your livestock barn with our Livestock Barn Air Circulators.

Features:

Product Name: Cow Barn Fans

Animal: Cow, Cattle, Goat

Model: Farm Fan

Noise Level: 69 DB

Protection Level: IP55

Power Source: Electric

Technical Parameters:

Power Source	Electric
Number Of Blade	4
Noise Level	69 DB
Airflow Capacity	32000m ³ /h
Voltage	380V 50Hz
Fan Diameter	1m
Blade Material	430 # Stainless Steel
Mounting Type	Wall Mount
Animal	Cow, Cattle, Goat
Blade Thickness	1mm

Applications:

Chuangpu HL-MP17 Cow Barn Fans are versatile and high-quality Bovine Enclosure Air Movers designed specifically for dairy cow barns, cattle farms, and goat enclosures. With a blade thickness of 1mm and an impressive airflow capacity of 32000m³/h, these fans are reliable and efficient in providing adequate ventilation for the animals.

Originating from China, Chuangpu barn fans are trusted for their superior performance and durability. The electric power source ensures consistent operation, making them ideal for continuous use in bovine enclosures.

These Dairy Cow Barn Ventilators are built to withstand harsh conditions, with a protection level of IP55 ensuring resistance to dust and water. This feature makes them suitable for use in various environments, including dusty cattle barns and humid goat enclosures.

Chuangpu HL-MP17 Cow Barn Fans are the perfect solution for maintaining optimal air quality and temperature in animal enclosures. By circulating fresh air and preventing the buildup of heat and moisture, these fans create a comfortable and healthy environment for cows, cattle, and goats.

Whether it's a large dairy farm or a small goat barn, these Bovine Enclosure Air Movers are essential for promoting animal well-being and productivity. Trust Chuangpu HL-MP17 fans to provide reliable and efficient ventilation for your livestock, ensuring a happy and healthy herd.
