

Electric Cow Milking Machine with 1.1kw-3.0kw Power and 1440 Rpm/Min Speed for Efficient Dairy Farming

Our Product Introduction

for more products please visit us on mobilemilkingmachine.com

Basic Information

- Certification: ISO9001:2008, CE
- Minimum Order Quantity: 1

Product Specification

- Model NO.: HL-JN10
- Power Source: Electric
- Power: 1.1kw-3.0kw
- Stainless Bucket: 25L
- Motor Speed: 1440 Rpm/Min
- Working Vacuum: 50kpa
- Milking Time: 5-6cows/Min
- Voltage: 240V
- Frequency: 50-60Hz
- Vacuum Pump: 550L
- Bucket Quantity: 1-16
- Milk Bucket: 25L, 32L
- Production Capacity: 200 Sets/Month
- Transport Package: Wooden Crate
- Computerized: Non-Computerized

Product Description

Cow Milking Machine for Sale

Competitive Advantages of Bucket Milking Machine:

- Portable milking equipment suitable for cows, goats, and sheep
- Easy to move and operate
- Customizable voltage to meet different client requirements
- Includes one-year warranty and lifetime technical support

Product Specifications:

- Model: HL-JN10 pail bucket milking machine
- Designed for dairy cows
- 240 voltage, 50-60Hz
- Includes technical support

Product Description:

The bucket milking machine includes stainless steel milking buckets and components such as milking units (bucket, liner, teat cup shell, claw, pulsator), and a 550L vacuum pump with oil pot, silencer, belt, and pulley.

The HL-JN10 model functions similarly to mobile milking machines and can be used for cows, goats, and sheep by changing the milking cluster group. The system supports 1-16 milking buckets. Milking time averages 5-6 minutes per cow and less for goats.

This portable milker is ideal for small cow barns and goat breeding farms, helping to save time and labor costs (one operator can manage 6-8 buckets). The machine can be powered by electric motor, diesel, or gasoline engine for uninterrupted operation during power outages.

Optional transparent milk buckets (25L or 32L) with measurement scales allow direct milk quantity assessment during milking.

Applications:

- Suitable for cows, goats, and sheep
- Requires annual spare parts replacement
- Ideal for dairy farms and household use
- Available for international retailers
