

Portable Bucket Milking Machine with 25L Stainless Bucket 1.1kw-3.0kw Power and 1440 Rpm/Min Motor Speed

Our Product Introduction

for more products please visit us on mobilemilkingmachine.com

Basic Information

- Certification: ISO9001:2008, CE
- Minimum Order Quantity: 1
- Price: 1000

Product Specification

- Model NO.: HL-JN10
- Power Source: Electric
- Power: 1.1kw-3.0kw
- Stainless Bucket: 25L
- Motor Speed: 1440 Rpm/Min
- Working Vacuum: 50kpa
- Milking Time: 5-6cows/Min
- Voltage: 240V / 50-60Hz
- Pulsator Frequency: 60-80 Times Per Minutes
- Pump Capacity: 550L,850L
- Bucket Quantities: 1/pcs To 10 Pcs (25liter)
- Milking Cluster: 1 Set To 10 Sets
- Worker Requirement: 1
- Transparent Bucket: 25 Litre And 32 Litre
- Production Capacity: 200 Sets/Month

Product Description

New Type Portable Milking Machine for Cow

Short Details

HL-JN10 pail bucket milking machine
Bucket milking machine for dairy cows
240 voltage, 50-60Hz
Includes technical support

Competitive Advantages

Portable milking equipment suitable for cows, goats and sheep
Easy to move and operate
Customizable voltage to meet different requirements
One year warranty with lifetime technical support

Specifications

Model	HL-JN10
Item	Bucket Milking Machine
Milking Time	5-6 min/cow
Pulsator Frequency	60-80 times per minute
Voltage	240V / 50-60Hz
Power	550w
Pump Capacity	550L, 850L
Bucket Quantities	1-10 pcs (25liter)
Milking Cluster Group	1-10 sets
Worker	1
Usage	Dairy cow farms

Product Description

The bucket milking machine includes stainless steel milking buckets with the following components:

Milking units (bucket, liner, teat cup shell, claw, pulsator)
250L vacuum pump (oil pot, silencer, belt, pulley)

The HL-JN10 bucket milking machine is similar to mobile milking machines and can be used for cows, goats and sheep by changing the milking cluster group. The milking bucket quantity can range from 1 to 16. Milking time varies between cows (5-6 minutes) and goats (shorter time).

This portable milker is ideal for small cow barns and goat breeding farms, helping save time and costs as one worker can operate 6-8 milking buckets. The machine can be powered by electric motor or diesel/gasoline engine when electricity is unavailable.

Optional transparent milk buckets (25L or 32L) with measurement scales are available for direct milk measurement during milking.

Applications

Suitable for cows, goats and sheep
Requires yearly spare parts replacement
Ideal for dairy farms and household use
Available for international retailers
