

Portable Vacuum Pump Milking Machine with 25 Liter Stainless Steel Bucket and 0.75kw Power for Efficient Dairy Farming

Our Product Introduction

for more products please visit us on mobilemilkingmachine.com

Basic Information

- Minimum Order Quantity: 1
- Price: 483

Product Specification

- Model NO.: HL-JN02
- Voltage: 220V/50Hz
- Power: 0.75kw
- Milk Bucket Volume: 25 Liter
- Vacuum Degree: 50 Kpa
- Vacuum Pump: 250 L/min
- Motor Type: Copper Corn
- Productivity Cows: 10-12 Cows/hour
- Productivity Goats: 20-30 Goats/hour
- Milking Time Cow: 5-6 Min/cow
- Milking Time Goat: 3-4 Min/goat
- Pulse Frequency: 60:40
- Bucket Base Dia.: 310mm
- Bucket Mouth Dia.: 190mm
- Bucket Height: 480mm

Product Description

HL-JN02 Dairy Farm Double Bucket Vacuum Pump Milking Machine for Goats and Sheep

Quick Details

Item: Dairy Machinery Portable Goat Milking Machine
Milk Bucket Volume: 25 Liter
Milk Bucket: Stainless steel construction
Milk Cup Group: Goat milk cup group / milking cluster group
Transparent Tube: Food grade material with SGS certification

Specifications

Model	HL-JN01
Vacuum Degree	50 Kpa
Vacuum Pump	250 l/min
Motor	Copper corn
Voltage	220/50Hz (accept customization)
Power	750 - 1100 w
Milk Bucket	25 L
Productivity	10-12 cows/hour 20-30 goats/hour
Milking Time	5-6 min/cow 3-4 min/goat
Pulse Frequency	60:40
Certificate	ISO, CE, SGS, FDA

Stainless Steel Milk Bucket Dimensions

Volume	Base Dia.	Mouth Dia.(OD)	Height	Thickness	Weight
25L	310mm	190mm	480mm	0.8mm	4.5kg

Product Description

This portable vacuum pump goat milking machine features a complete set including 250L vacuum pump system (pump, oil can, muffler, vacuum meter, regulator), electric motor, 2-port milk pulsator, transparent milk and pulse tubes, milking cluster group, stainless steel milk bucket, and frame/brackets. Designed for mobility and flexibility with no space constraints.

Versatile for various animals including cows, yak, and camels by simply changing the milk cup group. Ideal for individual farmers with 15-20 dairy cows or 30-40 dairy goats/sheep. The stainless steel milk bucket can be replaced with a transparent version for direct milk observation and measurement.

Can be paired with diesel or gasoline/petrol engines alongside the electric motor. Includes 1-year warranty with potential lifespan of 7-8 years (excluding wear parts like milk liner, milk tube, and pulse tube which typically require annual replacement). Lifetime technical support provided.

Key Advantages

- CE, SGS, and ISO certified
- Heavy-duty wheels for easy mobility
- Cost-effective with high quality and efficiency
- Rust-resistant stainless steel frame
- 25L stainless steel milk bucket for easy cleaning
- Long service life with lifetime technical support

Applications

Designed for milking various animals including goats, sheep, cows, yak, and camels by simply changing the milk cluster group. Efficiently collects and transports milk into the storage bucket.
