Product Description

Stainless Steel 25L Buckets Milking Machine for Dairy Cows

The HL-JN10 Cow Milking Machine is a portable milking system designed for efficient dairy operations with cows, goats, and sheep. Featuring durable stainless steel construction and customizable configurations, this equipment is ideal for both small farms and commercial dairy operations.

Applications

- Suitable for milking cows, goats, and sheep
- Ideal for dairy farms and household use
- Perfect for international retailers
- Annual replacement of spare parts recommended

Key Advantages

- Portable design for easy movement and operation
- Customizable voltage options available
- Includes 1-year warranty and lifetime technical support
- Versatile for multiple animal types with cluster group adjustments

System Components

- Milking units (bucket, liner, teat cup shell, claw, pulsator)
- 250L vacuum pump with oil pot, silencer, belt, and pulley

This mobile milking system can accommodate 1-16 buckets, with milking times of 5-6 minutes per cow (shorter for goats). The efficient design allows one operator to manage 6-8 buckets simultaneously, saving labor costs. Optional diesel/gasoline engine compatibility ensures operation during power outages.

Available with either 25L or 32L transparent milk buckets featuring measurement scales for direct milk quantity assessment during milking.
