

Electric Cow Milking Machine with Customizable Voltage Easy to Operate for Cows Goats and Sheep

Our Product Introduction

for more products please visit us on mobilemilkingmachine.com

Basic Information

- Certification: ISO9001:2008, CE
- Minimum Order Quantity: 1
- Price: 1000

Product Specification

- Model NO.: HL-JN10
- Power Source: Electric
- Power: 2.2kw-5.5kw
- Stainless Bucket: 25L
- Motor Speed: 1440 Rpm/Min
- Working Vacuum: 50kpa
- Milking Time: 5-6cows/Min
- Pulsator Frequency: 60-80 Times Per Minutes
- Voltage: 240V / 50-60Hz
- Pump Capacity: 550L,850L,1500L
- Bucket Quantities: 1pcs To 10pcs
- Milking Cluster: 1 Set To 10sets
- Worker Requirement: 1 Or More
- Transport Package: Wooden Crate
- Production Capacity: 200 Sets/Month

Product Description

Dairy Farm Cow Milking Machine for Sale HL-JN10

Applications

- Suitable for cows, goats and sheep
- Spare parts require annual replacement
- Ideal for both dairy farms and household use
- Available for retailers worldwide

Competitive Advantages

- Portable milking equipment for cows, goats and sheep
- Easy to move and operate
- Customizable voltage to meet different requirements
- Includes one-year warranty and lifetime technical support

Product Description

The HL-JN10 Cow Milking Machine is a portable solution similar to mobile milking machines, capable of milking cows, goats and sheep by simply changing the milking cluster group. The system supports 1 to 16 milking buckets with varying milking times: approximately 5-6 minutes per cow and shorter for goats.

This machine is ideal for small cow barns and goat breeding farms, helping to save time and costs as one worker can operate 6-8 milking buckets simultaneously. The system can be powered by electric motor, diesel or gasoline engine, ensuring operation even during power outages.

Available with transparent milk buckets (25L or 32L) featuring measurement scales for direct milk quantity assessment during milking.

Specifications

Model	HL-JN10
Item	Pail Cow Milking Machine
Milking Time	5-6 min/cow
Pulsator Frequency	60-80 times per minute
Voltage	240V / 50-60Hz
Power	2.2kw to 5.5kw
Pump Capacity	550L, 850L, 1500L
Bucket Quantities	Expandable from 1 to 10 pieces
Milking Cluster Group	1 to 10 sets
Worker Requirement	1 or more
Usage	Dairy cow farms

Key Features

- Portable pail milking machine for dairy cows
- 240V, 50-60Hz operation
- Includes technical support
