#### Applications

- Suitable for cows, goats, and sheep
- Ideal for dairy farms and household use
- Perfect for international retailers
- Annual spare parts replacement recommended

#### Competitive Advantages

- Portable design for easy movement and operation
- Customizable voltage to meet different client requirements
- One-year warranty with lifetime technical support
- Versatile for multiple animal types

#### System Components

Complete bucket cow milking machine includes stainless steel milking buckets with:

- Milking units (bucket, liner, teat cup shell, claw, pulsator)
- 250L vacuum pump (oil pot, silencer, belt, pulley)

This mobile milking machine can milk cows, goats, and sheep by changing the milking cluster group. Supports 1 to 16 milking buckets with varying milking times (5-6 minutes for cows, shorter for goats). Ideal for small cow barns and goat breeding farms, helping save time and costs with one worker operating 6-8 buckets.

#### Power Options

Available with electric motor, diesel, or gasoline engine for uninterrupted operation during power outages.

#### Bucket Options

Choose between 25 litre and 32 litre transparent milk buckets with measuring scales for direct milk measurement during farming operations.
