

## 200ML Milking Machine Spares , Milk Sampling Bottle Blue Color

Our Product Introduction

for more products please visit us on [mobilemilkingmachine.com](http://mobilemilkingmachine.com)

### Basic Information

- Place of Origin: Jiangsu,China
- Brand Name: HL
- Certification: CE ISO SGS
- Model Number: HL-MP47A
- Minimum Order Quantity: 1 Set
- Price: Negotiation
- Packaging Details: Standard Packaging
- Delivery Time: 1 to 3 Working Days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 20000/Month

### Product Specification

- Model: HL-MP47A
- Capacity: 200 MI
- Height: 85 Mm
- Delivery Time: 1 To 3 Working Days
- Delivery Port: Shanghai
- Payment: T/T, Western Union, MoneyGram, Paypal
- Highlight: **milking equipment parts,  
milking machine spare parts**

## Product Description

### 200ML Milking Machine Spares , Milk Sampling Bottle Blue Color

#### Specification of Milk Analysis Instrument Milk Samplers:

Model	HL-MP47A
Capacity	200 ml
Height	85 mm
Bottle Diameter	58 mm
Bottle Upper Mouth Diameter	42 mm
Weight	0.278 KG
Application	Dairy Farm Milk Sampling

#### Application and Features of Milk Analysis Instrument Milk Samplers:

Dairies for milk sampling, analysis of samples of milk, adapted to provide group management information, such as somatic cell count, bacteriology, milk progesterone, urea and protein, and so on.

So you know, the content of milk.

1. For milk samples with different milk content in different time sampling intervals, for the same cow, in different time intervals can be taken 200ML milk.
2. Can be used in fish bone, and other pipeline milking parlor.
3. The durable, corrosion, acid and alkali resistance.
4. Health-grade material, clean, easy to clean, easy to follow, easy to operate.
5. Easy to clean, suitable for CIP cleaning system for cleaning.
6. The independent milk sampler, low cost, high return.

#### Introduction of Milk Analysis Instrument Milk Samplers:

Milk Analysis Instrument Milk Samplers collect milk samples from farms, dairy plants and tank cars and trucks for laboratory analysis. They remove samples from bulk tanks, tankers or milking machines, using dipper or pipette, and pour samples into sterile bottles. Workers weigh samples, label bottles with origin of sample and pack samples in dry ice. Milk samplers transport samples to laboratory for bacteriological and butterfat content analysis, contact potential customers to explain benefits of testing program to sell milk testing service and may assist customers in interpreting sample test results to maximize benefits to customers. Samplers may also maintain individual milk production records for each cow in a customer's herd.
