Product Description

Pipeline Cow / Goat Milking Parlor With A Milk Transport Conduit

Applications:

Our company Milking Parlor could be used for cow,sheep,goat and cattle. And also they can milk many cows at one time.

Description:

Our company Pipeline Milking System is another milking equipment after the pail-typed milking machine.Compared with the pail-typed milking machine,pipeline milking equipment has one important milk transportation pipe,which automatically transports the milk into the center milking cooling tank to be quick chilled.

Pipeline milking system is suitable for installing in the big cow house,which makes the cows finish the milking without milking parlor.

Features:

Install easily and quickly.
Layout compact,save space.
High efficiency and low cost.
Could improve cow's milk production.
Could suit different cow/cattle/dairy size.

Parts of the Milking Parlor:

Vacuum System, Pulsating System, Milk Piping and Tubing System, Milk Cluster Group, Milk Receiver System, Washing System.

Competitive Advantage:

High Quality with reasonable price.
With one year warranty and all life long support.
We are machines manufacture sale directly.
Best quality to assure long life-using.
We provide the technical support within the one year warranty.
Engineers overseas available to install the parlor and train the workers.
