Product Description

7CBM Vertical TMR Mixers For Cow Farms , CE Certificate Cattle Feed Mixer

P-Quick Details

- Item: Mobile TMR Feed Mixer Machine
- Volume: 7 CBM
- Mixing time: 10 - 15 minutes
- Length of Grass: 5 - 10cm
- Structure: vertical feed mixer
- Type: trail-type(mobile type) or stationary

P-Description

The meaning of TMR is "Total Mixed Ration".

Mobile TMR feed mixer machine mixes fully whole grains, grain feed, trace elements with other additives, offers enough nutrition to meet cow, sheep and other animals. This mobile TMR feed mixer machine are / is an ideal equipment for farm, agriculture, nurture, cultivation, family farming. This mobile TMR feed mixer machine be equipped with weight system, the weighting is more accurate. Machine structure is simple and stable, easy to cooperate. Through stirring(uniform stirring effect), the feed is more fluffy and more even, which could help create one scientific proportion of nutrition and making poultry keep healthy, improve dairy production , the quality of dairy cows and dairy cow breeding.

The mobile TMR feed mixer machine be constructed by electrical system, mixing box body, vertical ground dragon, hydraulic system, weighing sensor system, transmission system and other parts.

P-Features

1. The mobile TMR feed mixer machine adopts the high quality gear reducer, stable quality, low failure rate, the design life is more than 20000 hours, and the maintenance is also very simple, first maintenance and replacement of gear oil is after 1000 working hours, and every 4000 hours after the first time maintenance.
2. The mobile TMR feed mixer machine maximum design of auger, improve the mixing efficient and mixing effect, standard production can complete full ration in 10-15 minutes.
3. The The mobile TMR feed mixer machine blades are made of alloy blade the best quality, the working hours are 1200-1500 hours.
4. The mobile TMR feed mixer machine be with accurate electronic weighing system to better grasp the dietary ratio.
5. The mobile TMR feed mixer machine can be designed with both side discharge gates, is convenient for users.
6. The mobile TMR feed mixer machinemixing efficient of multi-augers is higher, and the diet palatability is better.
7. The mobile TMR feed mixer machine design of multi-augers to realize the large scale of TMR, for the super large ranch provide dietary production support.
8. The mobile TMR feed mixer machine is easily handle large round or square bales of hay and reduce labor costs;
9. The mobile TMR feed mixer machine could greatly reduce the chance of caking feed, save feed costs, improve economic returns;
10. The mobile TMR feed mixer machine could help reduce the incidence of disease, the probability of lacking of trace elements / vitamins.
