

## Thermal Plastic Dairy Farm Electronic Milking Machine Pulsator for Milking Parlor System

Our Product Introduction

for more products please visit us on mobilemilkingmachine.com

### Basic Information

- Place of Origin: China
- Brand Name: CHUANG PU
- Certification: ISO, CE
- Model Number: HL-P06A
- Minimum Order Quantity: One piece
- Price: Negotiation
- Packaging Details: Carton
- Delivery Time: 5 - 8 working days
- Payment Terms: T/T, Western Union, Paypal
- Supply Ability: 1000 pieces/Month

### Product Specification

- Name: Electronic Milking Machine Pulsator
- Model: HL-P06A
- Type: LE20 Electronic
- Material: Thermal Plastic
- Port: 4 Ports
- Voltage: 24V
- Highlight: interpuls pulsator, milker pulsator

## Product Description

### Dairy Farm Electronic Milking Machine Pulsator for Milking Parlor System

#### **Dairy Farm Electronic Milking Machine Pulsator Quick Details:**

- Item: Interpulse Electronic Pulsator
- Model: Interpulse pulsator
- Type: electric pulsator
- Pulsation Ratio: 60:40
- Outlet: 2 outlets or 4 outlets for choosing
- Type of Animal: Cow, sheep, goat.

#### **Dairy Farm Electronic Milking Machine Pulsator Application:**

As one of core components of milking system, pulsator been used to control the milking times per minutes (pulsation rate) during milking process so that farmers could complete animal milk out, get higher milk output, keep good udder health and to make life easier. According to different individual farms, different scale farms, we supply different models pulsator.

#### **Dairy Farm Electronic Milking Machine Pulsator Decription:**

Pulsator is one of the core components of milking system, which been used to control the milking times per minutes (pulsation rate) during milking process. Proper pulsation rate could help farmer complete animal milk out, get higher milk output, promote good udder health and to make life easier for the farmer. And the pulsation rate is adjustable, which could fit different parlour vacuum conditions. 2 types pulsator been provided: pneumatic pulsator and electric pulsator. The pneumatic pulsator is more popular using in small scale farms and individual farms, as for the medium and large scale farms, people like to choose the electric pulsator.

#### **Dairy Farm Electronic Milking Machine Pulsator Features:**

- Electronic pulsators, the voltage is 24 V, and need utilize one electric pulsator controller and transformer, but they are more preciser and easy to maintain.
- The pulsator could be with 2 outlets ( port connector) or 4 outlets ( port connector), and the outlet tube material could be plastic or stainless steel.
- The pulsator pulsation ratio is 60:40, and the pulsation rate is adjustable according to the vacuum degree.
- Compared with pneumatic pulsators, the electronic pulsators are more accurate and durable, and easier to maintain.

#### **We produce different pneumatic milk pulsator, like L02, L80, L90, LT80**

Model Item	Milk Pulsator
Model	L02, L80, L90, LT80
Type	Pneumatic, Interpulse
Outlet	2 or 4
Pulsation Rate	60 times / min
Pulsation Ratio	60:40
Milking System	milking machine for cows, goats, sheep, buffalo, camel

#### **Dairy Farm Electronic Milking Machine Pulsator Specification:**

Model No.	HL-P06A
Model	LE20 milk pulsator
Type	electric milk pulsator
Voltage	24V
Outlet	4 plastic tubes
Pulsation Ratio	60:40
Pulsation Rate	adjustable
Packaging	Carton
Quantity	1PCS / Carton
Shipping	By Sea, By Train, By Air, By DHL / Fedex etc. (depends on quantity)
