

Cattle Drenching System pumping device cow drencher , drenching fresh cow , animal care

Our Product Introduction

for more products please visit us on mobilemilkingmachine.com

Basic Information

- Place of Origin: Jiangsu China(Mainland)
- Brand Name: Chuangpu
- Certification: ISO
- Model Number: HL-Q1-II
- Minimum Order Quantity: 1set
- Price: USD\$300.00/set
- Packaging Details: CARTON
- Payment Terms: Western Union, MoneyGram, T/T, L/C
- Supply Ability: 100SET/MONTH

Product Specification

- Material: Stainless Steel, PVC
- Animal: Dairy Cow
- Item: Cow Rehydration Device Goat Fluid Infusion Cattle Fluid Replacement
- Parts: Cattle Nose Clip Pneumatic Cylinder Hose Sealing Ring Spring Hose
- Fluid Input Fluid Input Volume: 2-3min/50KG
- Function: Drench System Provides An Easy Way To Administer The Large Amounts Of Nutrient-rich Fluid That Sick Or Fresh Cows Need To Return To Peak Production.
- Highlight: **veterinary medical instruments, cattle nose ring**

Product Description

Product Model Number: HL-Q1

Cattle Drenching System, cow drencher , drenching fresh cow , animal care

The cow drencher is a unique pumping system specifically designed for high volume drenching pre or post fresh and sick cows and cattle.

It was designed for the sole purpose of making cow and cattle drenching easier, lowering the risk, taking less time to get the job done but yet making it very affordable.

Product Material: Stainless Steel, PVC

Description:

Dairy rehydration device is composed of drug delivery device, transparent catheter and gastric tube three parts.

Wherein the drug pumping device through the transparent conduit tube link, trans-esophageal gastric tube is inserted into the rumen.

And then drug pumping device pumping liquid medicine delivery to the stomach tube, into the rumen, to complete the dehydration of cattle water.

Feature:

Cattle Nose Clip: one hand operation, opening diameter of 70mm, for all types of cattle.

Pneumatic Cylinder: with a check valve to prevent liquid backflow.

Gas cylinders, handles, spring tube are made of 304 stainless steel and is equipped with non-slip rubber handle, cylinder pressure resistance does not exceed 1kg;

Hose: the use of food-grade transparent milk tube extrusion molding without seams, no leakage;

Sealing Ring: the use of nitrile rubber non-toxic life lasting.

Spring Hose: the top Seiko polished, no burr, chamfering the mouth of the cattle, the esophagus without any damage.

Fluid Input Fluid Input Volume	2-3min/50KG
Consist	Cattle Nose Clip Pneumatic Cylinder Hose Sealing Ring Spring Hose

PRODUCT INTRODUCTION

Product Name:Cattle Fluid Feeder

Product Model:HL-Q1-II

Features

1. Be made of 304 stainless steel, durable and not rusty
2. High-performance food-grade pipe, cold-resistant minus 190°C
3. Simple operation and convenient drawing

PRODUCT PARAMETERS

Weight: 2.5KG

Weight: 2.9KG

Composition

Cylinder

Spring Tube

Mouth Holder

Clamp

Tube

Instruction

Lubricant
(for inner wall lubrication)

PTFE
(for connection and sealing)

O-ring
(cylinder seal)
