## Product Description

Cattle Bloodless Castrator, Bull burdizzo castrator, Burdizzo Forceps for castrating a bull, veterinary instruments

Model: HL-Q2

Name: Bloodless Castrating(Burdizzo)

Material: stainless steel

Animal: cow / cattle / bull

Range: veterinary instruments

Features: operation is simple, easy to use, no blood castration

Castration is the simple process of removing a bull's ability to reproduce. A castrated bull is commonly referred to as a steer.

Why need choose Bloodless Castrating(Burdizzo)?

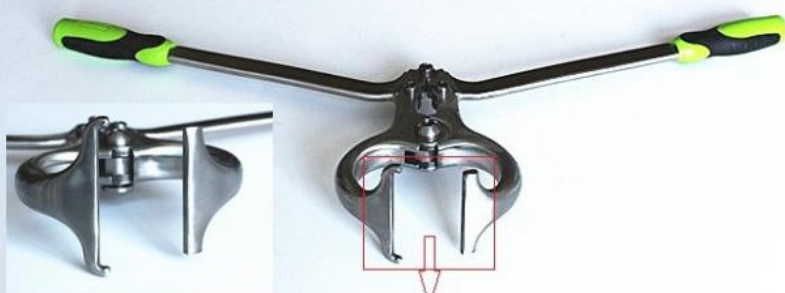

Bloodless castrating (no chance of infection) -- no method is painless but this one is the most humane and expedient.

Kids are back to normal in a few hours and there is no waiting for testicles to rot and fall off! As the kid grows, his testicles do not.

They will remain small.

Bloodless castration, the most humane way to do this. Much better than banding or just cutting the poor fellas.

Item	Cattle Bloodless Castrator, Animal burdizzo castrato, SUS Burdizzo Forceps for cow, Veterinary Medical Instrument Parts
Features	Simple operation Easy to use Bloodless castration
